Software Intern — Payoneer WFM | B.Tech Artificial Intelligence, SVNIT (CGPA 9.20/10) | Available Summer 2027

Summary

Penultimate-year **B.Tech** student in **Artificial Intelligence** (core **computer science** coursework) at **SVNIT Surat**—a **Tier-1 NIT** (CGPA **9.20/10**, graduating May 2028). **LeetCode Knight** (2048, 711+ solved, 32 contests) and **Codeforces Specialist** (1419, 252+ solved) with strong **DSA** fundamentals—arrays, graphs, DP, and complexity analysis. Shipped **production software** at IFFCO (**Node.js**, **Express**, **MySQL**) and multiple **deployed** projects on **GCP Cloud Run**. Hands-on **AI engineering**: **RAG** with **ChromaDB**, **Gemini** API integration, and daily **AI-assisted development** (**Cursor**)—used to accelerate implementation after reasoning through design, data structures, and edge cases first.

Education

Bachelor of Technology in Artificial Intelligence

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat, India

CGPA: 9.20/10

Aug 2024 – May 2028

- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Operating Systems, DBMS, Computer Networks, Distributed Systems
- **Eligibility:** 2+ years completed; related engineering discipline; no active backlogs; available full-time for internship

Experience

Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj, India

Jun 2025 – Jul 2025

- Shipped **production software** used daily by operations teams (**Node.js**, **Express.js**, **MySQL**)—automating **50+ workflows** with **JWT** auth, input validation, and structured error handling.
- Built **10+ RESTful APIs** with optimized SQL; **debugged** production issues via stack traces, logs, and reproducible test cases.
- Participated in **peer code review**, **unit/integration testing**, **Docker**, and **CI/CD**—shipping reviewable code with mentor sign-off before deploy.

Projects

LogiFlow — Multi-Modal Logistics Platform (Google Solution Challenge 2026, Global Top 106)

Apr 2026 – Jun 2026

Python, FastAPI, TypeScript, Next.js, Redis, GCP Cloud Run, XGBoost, pytest

GitHub | Live

- Co-led backend **systems design**; engineered **100–400 ms** read paths across **580+ corridors** using **Redis** caching and modular services on **Cloud Run**.
- Built **100/100 pytest** business-rule regression suite and documented REST APIs—code teammates can read and extend six months later.

AirHelp — AI Airport Assistant (PowerMind Hackathon 2026)

2026

Python, FastAPI, React, WebSockets, ChromaDB, NetworkX, RAG

GitHub

- Shipped **RAG** semantic search with **ChromaDB** vector store, intent orchestration, and **WebSocket** real-time alerts—**1–3s** latency at **50–100 concurrent** users.
- Applied **prompt engineering** and retrieval tuning; articulated when RAG fails (ambiguous queries, stale embeddings) vs. when rule-based routing is safer.

Community Hero — Civic Reporting PWA (Vibe2Ship 2026, Global Top 20)

Jun 2026

TypeScript, React, Express, Firebase, Gemini API, GCP Cloud Run

GitHub | Live

- Solo-built and **deployed** production PWA; integrated **Gemini API** for categorization with validation guardrails and **Firestore** security rules.
- Used **AI-assisted workflows** (**Cursor**) for velocity on boilerplate and tests—after defining architecture, API contracts, and failure modes on paper first.

Technical Skills

DSA & Problem Solving: Arrays, strings, hash maps, trees, graphs, recursion, DP, sorting/searching; complexity analysis; competitive programming (**LeetCode**, **Codeforces**, **CodeChef**)

Languages: Python, Java, JavaScript, TypeScript, C++, C, SQL

Engineering: OOP, debugging, **code review**, unit/integration testing, Git, Docker, CI/CD, REST APIs, Linux

AI Engineering: LLM APIs (Gemini), **RAG**, **vector databases** (ChromaDB), prompt design; **AI-assisted development** (Cursor, Claude) used responsibly in shipped projects

Platforms: GCP Cloud Run, Firebase, MySQL, PostgreSQL, Redis, React, Node.js, FastAPI

Achievements and Leadership

- **LeetCode Knight:** Rating 2048, 711+ solved (leetcode.com/Oju_Srivastava) | **Codeforces Specialist:** 1419 (codeforces.com/profile/Oju)
- **Google Solution Challenge 2026 — Global Top 106; Vibe2Ship 2026 — Global Top 20; McKinsey.org Forward Fellow (2026)**
- **Executive Member, ACM SVNIT & DSA Mentor, Nexus SVNIT** — workshops, contests, and mentoring
