

Ojas Srivastava

+91-7424978046 | srivastavaojas454@gmail.com | LinkedIn | GitHub | Portfolio

Pre-final year | B.Tech Artificial Intelligence, SVNIT Surat (NIT) | CGPA **9.20/10** | Graduating **May 2028**
Tech Intern — Backend (ClearTax) | Open to **Bangalore (Full-time, In-Office)**

Education

SVNIT Surat	B.Tech — Artificial Intelligence	9.20/10	2024–2028
Shiv Jyoti Convent School, Kota	Class XII (CBSE)	95.80%	2024
St. Joseph's College, Prayagraj	Class X (ICSE)	97.20%	2022
<i>Coursework:</i> Data Structures & Algorithms, Distributed Systems foundations, DBMS, OS, Computer Networks, Machine Learning, Software Engineering.			

Experience

Software Engineering Intern

Jun–Jul 2025

IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj

- Shipped production backend services (**Node.js, Express, MySQL**) automating **50+ daily** workflows—ownership from design through deploy.
- Built **10+ REST APIs** with validation and structured errors; debugged messy real-world edge cases using logs and stack traces.
- Practiced Docker, CI/CD, peer review, and documentation in a live engineering environment.

Projects — Backend, Scale & AI

LogiFlow — Scalable Backend + ML (Google Solution Challenge 2026, Global Top 106)

Apr–Jun 2026

Python, FastAPI, TypeScript, Redis, SQL, GCP Cloud Run, pytest

GitHub / Live

- Co-led cloud-native backend on **GCP Cloud Run**; Redis caching for **100–400 ms** hot-path reads across large corridor graphs.
- Built data/ML pipelines over **15,000+** records and a **100/100** pytest suite so broken logic fails in CI before production-like release.

AirHelp — Backend + AI Inference Path (PowerMind Hackathon 2026)

2026

Python, FastAPI, RAG, ChromaDB, WebSockets, React

GitHub

- Built FastAPI services for **RAG** retrieval and Q&A; WebSocket alerts; load-tested **50–100** concurrent users (**1–3s** latency) and hardened failure modes.

Community Hero — AI Feature to Production (Vibe2Ship 2026, Global Top 20)

Jun 2026

TypeScript, Express, Gemini API, Firebase, GCP Cloud Run

GitHub / Live

- Solo-shipped LLM-backed categorization with guardrails from prototype to Cloud Run—backend supporting an AI product feature end to end.

Skills

Languages: Python, TypeScript, JavaScript, C++, Java, SQL

Backend: REST APIs, FastAPI, Node.js/Express, Redis, MySQL/PostgreSQL/Firestore, WebSockets, Docker, CI/CD, Git

AI + Systems: RAG, LLM integration, embeddings, cloud deploy (GCP), debugging at the edge, open-source contribution mindset

Foundations: DSA (LeetCode Knight **2048**), systems thinking, ownership from design discussions to production

Achievements & Leadership

- Chairperson, Nexus SVNIT**; **Google Solution Challenge 2026 — Global Top 106**; **Vibe2Ship 2026 — Global Top 20**
- LeetCode Knight:** peak **2048**, **744+** solved; **Codeforces Specialist:** **1419**
