

Ojas Srivastava

+91-7424978046 | srivastavaojas454@gmail.com | LinkedIn | GitHub | Portfolio

Pre-final year | B.Tech Artificial Intelligence, SVNIT Surat | CGPA **9.20/10** | Graduating **May 2028**

Quantitative Researcher Internship — 2027 (Quantbot) | Available **Jun–Aug 2027** | Open to **Hong Kong**

Education

SVNIT Surat	B.Tech — Artificial Intelligence	9.20/10	2024–2028
Shiv Jyoti Convent School, Kota	Class XII (CBSE)	95.80%	2024
St. Joseph's College, Prayagraj	Class X (ICSE)	97.20%	2022
<i>Coursework:</i> Probability & Statistics, Linear Algebra, Machine Learning, Data Structures & Algorithms, DBMS, Operating Systems. Penultimate year; STEM bachelor's.			

Research-Oriented Projects

LogiFlow — Predictive Modeling & Experimental Evaluation (Google Solution Challenge 2026, Global Top 106) *Apr–Jun 2026*

Python, Scikit-learn, Pandas, NumPy, SQL, cross-validation, pytest *GitHub | Live*

- Framed delay risk as a research question; engineered features from timetable, route, and history on **15,650** train-day records.
- Trained **Gradient Boosting** models with train/validation loops (**MAE 22.7 min**; **81%** of predictions within 30 min); iterated on features and error analysis.
- Built a **100/100** automated validation suite and multi-objective (Pareto) ranking tooling—hypothesis → model → measured evaluation.
- Documented methods and presented results to teammates/judges; Technical Co-Lead for Neural Foundry.

AirHelp — Retrieval Models & Large Unstructured Knowledge (PowerMind Hackathon 2026) *2026*

Python, embeddings, ChromaDB, RAG, NumPy, FastAPI *GitHub*

- Built data-driven retrieval workflows over structured + unstructured knowledge; evaluated latency/quality under concurrent load (**50–100** users, **1–3s**).

Community Hero — Noisy Real-World Data Pipelines (Vibe2Ship 2026, Global Top 20) *Jun 2026*

Python, TypeScript, Gemini API, Firestore *GitHub*

- Designed categorization over messy user submissions with quality checks and guardrails; owned framing through evaluation under a fixed timeline.

Experience

Software Engineering Intern *Jun–Jul 2025*

IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj

- Prepared and queried operational **datasets** (MySQL/SQL) for reporting and automation of **50+** daily processes; reviewed data quality before use.
- Shipped production services with testing and iterative feedback—ownership from problem framing through deployment.

Skills

Languages: Python, C/C++, SQL

Quantitative / ML: Statistical modeling, feature engineering, Gradient Boosting, cross-validation, Scikit-learn, Pandas, NumPy, experimental design

Data & Research Tooling: Large structured datasets, SQL, pytest, data quality checks, Git, Linux, research documentation & presentation

Foundations: Probability & statistics, linear algebra, algorithms; competitive programming (LeetCode Knight **2048**, Codeforces **1419**)

Additional

- Personal markets interest: invested in Indian equities/mutual funds **3+** years; Python tooling for portfolio logging, attribution, and screening (finance helpful, not assumed).
- **Chairperson, Nexus SVNIT**; Executive Member, ACM SVNIT; McKinsey.org Forward Fellow (2026)
