

Ojas Srivastava

+91-7424978046 | srivastavaojas454@gmail.com | github.com/Ojas-Srivastava05 | LinkedIn | Portfolio
B.Tech Artificial Intelligence, SVNIT Surat | **CGPA: 9.20/10** | 2024–2028 | U24AI028
LeetCode Knight (Max 2039, 600+ solved) | **Codeforces** Max Rating: 1360

Education

•Bachelor of Technology in Artificial Intelligence

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

CGPA: 9.20/10

2024 – 2028

Experience

•Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative) — Phulpur Unit, Prayagraj

Jun – Jul 2025

- Built and deployed a **production full-stack application** (Node.js, Express.js, MySQL) automating **50+ daily enterprise workflow operations** for the System Networking Division; JWT auth, input validation, and structured error handling.
- Designed **10+ RESTful APIs** with optimized SQL (indexing, joins); shipped through **unit testing**, debugging, peer code reviews, and integration testing on internal production infrastructure.
- Contributed to **Docker** containerization, **CI/CD**, and deployment — owned features end-to-end from implementation to production release.

Projects

•LogiFlow — Multi-Modal Logistics Platform

Next.js 16, React 19, TypeScript, FastAPI, Supabase, Redis, Leaflet, Scikit-learn, Gemini

Apr – Present 2026

GitHub | Live

- **Neural Foundry | Technical Co-Lead, UI/UX Head**: owned entire Next.js web frontend (7 pipeline surfaces, design system, API client, Zustand, Vercel proxy, backend warmup, Leaflet maps); co-led technical delivery with team leads across modes.
- **Railway Pipeline Owner**: engineered **sub-second read paths** (100–400 ms Supabase-first geometry and ML fetches) separate from heavy search compute — real-time corridor maps, branded cold-start UX, split caching (580+ corridors, 9,526 stations); **pytest** + **100/100** IRCA tariff validation.
- Shipped with team on **parallel real-time data pipelines** (road, rail, air, water + hybrid comparator): live ingestion, Gradient Boosting delay ML on 15,650 train-days (MAE 22.7 min, 81% within 30 min CV), validated pricing logic, Pareto ranking, and Gemini explainability.

•AirHelp — AI Airport Companion

FastAPI, React, WebSockets, ChromaDB, Sentence Transformers, NetworkX, RAG, Ollama

2026

GitHub

- **PowerMind Hackathon 2026**: shipped **AI-powered** conversational backend with intent orchestration, RAG semantic search, A* navigation, and **WebSocket real-time alerts**; 1–3s response, 95%+ nav accuracy, 50–100 concurrent users/instance.

•RangRiti — Full-Stack Marketplace

Node.js, Express.js, MongoDB, Cloudinary, Hugging Face, REST APIs

Jun – Aug 2025

GitHub | Live

- **Web Wonders 2025 | Technical Lead**: led 4-member team; shipped 40+ pages with booking flows, commerce logic, and AI integrations — deployed on Render with owned API layer.

Technical Skills

Languages: Python, C/C++, JavaScript, TypeScript, SQL

Backend & Real-Time Systems: FastAPI, Node.js, Express.js, REST APIs, WebSockets, Redis, sub-second read-path design, async/parallel pipelines, JWT

Frontend & Mobile: React 19, Next.js 16, TypeScript, Tailwind, Zustand, Leaflet, Capacitor

Data, ML & AI: Supabase, MySQL, MongoDB, Scikit-learn, Pandas, NumPy, RAG, LLMs (Gemini), feature pipelines

Quality & DevOps: pytest, unit/integration testing, Docker, Git, CI/CD, GitHub Actions, Vercel, Render, code review

CS Fundamentals: DSA, System Design, DBMS, OS, Computer Networks, Distributed Systems, OOP

Interests: Indian equities, mutual funds, and personal investing/trading (**3+ years**)

Achievements

- **Google Solution Challenge 2026** — **Global Top 100** (LogiFlow, Neural Foundry); Technical Co-Lead and UI/UX Head; Railway Pipeline Owner
- **LeetCode Knight** — Max Rating 2039, **600+ problems** solved; **Codeforces** Max Rating 1360
- **PowerMind Hackathon 2026** (AirHelp) | **Web Wonders 2025** Technical Lead (RangRiti, 40+ pages shipped)
- **CGPA 9.20/10** — top-performing cohort, B.Tech Artificial Intelligence, SVNIT Surat; **7+ live deployments** on GitHub

Leadership

•Technical Co-Lead & UI/UX Head — LogiFlow (Neural Foundry)

Owned full Next.js frontend, design system, and co-led technical delivery

2026

•Railway Pipeline Owner — LogiFlow

Owned rail UI, Supabase geometry cascade, pricing validation, and production latency fixes

2026

•Executive Member — ACM SVNIT Surat

Organizes campus coding contests and engineering workshops

2024 – Present

•Mentor — Nexus SVNIT

Mentors juniors in DSA, competitive programming, and project shipping

2024 – Present
