+91-7424978046 | srivastavaojas454@gmail.com | github.com/Ojas-Srivastava05 | LinkedIn | Portfolio
B.Tech Artificial Intelligence, SVNIT Surat | **CGPA: 9.20/10** | 2024–2028 | U24AI028
LeetCode Knight (Max 2039, 600+ solved) | **Codeforces** Max Rating: 1360

Education

•Bachelor of Technology in Artificial Intelligence

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

CGPA: 9.20/10

2024 – 2028

Experience

•Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative) — Phulpur Unit, Prayagraj

Jun – Jul 2025

- **Modernized legacy administrative workflows** by building and deploying a production web application (Node.js, Express.js, MySQL) automating **50+ daily enterprise operations** for the System Networking Division — gathered requirements with users, implemented features, and released to internal production.
- Designed **10+ RESTful web services** with optimized **relational SQL** schemas (indexing, joins, constraints); participated in **software validation** through **unit testing**, integration testing, debugging, and peer code reviews.
- Contributed to **Docker** containerization, **CI/CD** release pipeline, and deployment — owned process from development through maintenance on internal infrastructure.

Projects

•LogiFlow — Enterprise Logistics Web Platform

TypeScript, React 19, Next.js 16, FastAPI, MySQL/Supabase, SQL, Git, pytest

Apr – Present 2026

GitHub | Live

- Followed full **SDLC** — requirements, design, development, testing, cloud release, and maintenance; documented API contracts and architecture in /docs; **Technical Co-Lead** and **UI/UX Head** on **Google Solution Challenge 2026 Global Top 100** team (Neural Foundry).
- Built and maintained **7 web application modules** (typed API client, form validation, admin-style dashboards, maps); **Railway Pipeline Owner** with **pytest** regression suite and **100/100** validated business-rule test cases for pricing logic.
- Deployed to **cloud-hosted** environments (Vercel, Render, Supabase); used **Git** branching, code reviews, and GitHub Actions for release management and production support.

•RangRiti — Administrative Marketplace Web Application

Node.js, Express.js, MongoDB, SQL-style queries, REST web services, Git

Jun – Aug 2025

GitHub | Live

- **Technical Lead** (Web Wonders 2025): led 4-member team through SDLC to deliver **40+ web pages** — user profiles, booking administration, content management, and commerce workflows; owned API integration and cloud deployment on Render.

•AirHelp — Web Services & Data Application

FastAPI, React, REST APIs, SQLite, Git, unit-tested backend modules

2026

GitHub

- Built modular **web services** backend (FastAPI) with structured request/response contracts, relational session storage (SQLite), and component-based React UI — **PowerMind Hackathon 2026**.

Technical Skills

Languages & OOP: Python, JavaScript, TypeScript, C/C++, SQL

Web Applications: React 19, Next.js 16, Node.js, Express.js, component-based UI development, RESTful web services

Relational Databases: MySQL, SQL (joins, indexing, constraints, query optimization), SQLite, Supabase

SDLC & Software Validation: Requirements analysis, design, development, testing, release, maintenance; unit/integration testing; pytest; test plans and regression suites; peer code review

Tools & Cloud: Git, GitHub, CI/CD, GitHub Actions, Docker, cloud deployment (Vercel, Render), Postman

CS Fundamentals: Object-oriented programming, DBMS, Software Engineering, OS, DSA, OOP

Achievements

- **Google Solution Challenge 2026** — **Global Top 100** (LogiFlow, Neural Foundry); Technical Co-Lead, UI/UX Head, Railway Pipeline Owner
- **LeetCode Knight** — Max Rating 2039, **600+ problems** solved; **Codeforces** Max Rating 1360
- **PowerMind Hackathon 2026** (AirHelp) | **Web Wonders 2025** Technical Lead (RangRiti)
- **CGPA 9.20/10** — B.Tech AI, SVNIT Surat; **7+ live web applications** deployed on GitHub

Leadership

•Technical Co-Lead & UI/UX Head — LogiFlow (Neural Foundry)

Owned web frontend, design system, documentation, and co-led project delivery

2026

•Technical Lead — RangRiti (Web Wonders 2025)

Led 4-member team; API integration and on-schedule release

Jun – Aug 2025

•Executive Member — ACM SVNIT Surat

Organizes coding workshops and technical events

2024 – Present

•Mentor — Nexus SVNIT

Mentors juniors in programming fundamentals and project delivery

2024 – Present
