+91-7424978046 | srivastavaojas454@gmail.com | github.com/Ojas-Srivastava05 | LinkedIn | Portfolio

B.Tech Artificial Intelligence, SVNIT Surat | **CGPA: 9.19** | 2024–2028 | U24AI028

LeetCode Knight | Max Rating: 2005 | **600+** problems solved | **Codeforces** Max Rating: 1360

Experience

•Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative) — Phulpur Unit, Prayagraj

Jun – Jul 2025

- Built and deployed a **production full-stack application** (Node.js, Express.js, MySQL) automating enterprise workflows for the System Networking Division, eliminating manual processing for **50+ daily operations**.
- Designed **10+ RESTful APIs** with JWT authentication, input validation, and error handling; contributed production-ready code via peer code reviews and structured debugging.
- Contributed to **CI/CD pipeline** setup, Docker-based containerization, and deployment on internal infrastructure in collaboration with senior engineers.

Projects

•LogiFlow — Multi-Modal Cargo Logistics Optimizer (Google Solution Challenge 2026)

2026 – Present

Python | FastAPI | Next.js | TypeScript | Scikit-learn | Redis | Gemini AI | Capacitor (Android)

GitHub | Live

- Architected a **distributed multi-modal routing platform** (Road/Rail/Air/Water) addressing India's 4.6B tonne/year freight problem; parallel pipeline execution with **Redis caching** to eliminate redundant API calls across transport sources.
- Built a **Gradient Boosting ML delay prediction engine** trained on traffic, weather, and historical patterns; hybrid scoring uses **Pareto dominance detection** to rank routes by time, cost, and risk — structurally analogous to financial risk scoring systems.
- Integrated **Gemini AI explainability layer** providing natural language routing rationale; deployed on Vercel (frontend) + Render (backend) with a live Android APK via Capacitor.

•AirHelp — AI Airport Companion (PowerMind Hackathon 2026)

2026

Python | FastAPI | React | ChromaDB | RAG | A* Pathfinding | WebSockets | Whisper STT

GitHub

- Built a **privacy-first airport assistant** with a modular multi-layer AI architecture: RAG pipeline (ChromaDB + Sentence Transformers) for semantic facility search, and **A* graph-based pathfinding** for real-time turn-by-turn navigation.
- Implemented **WebSocket-based real-time operational alerts**, 3-layer conversation memory (persistent/ephemeral/turn-based), OCR boarding pass scanning, and fully offline voice via **Whisper STT + Piper TTS**.

•RangRiti — Full-Stack Cultural Marketplace

Jun – Aug 2025

Node.js | Express.js | MongoDB | REST APIs | AI Integration

GitHub | Live

- As **Technical Lead**, architected and delivered a marketplace platform with artist profiles, workshop booking, and AI storytelling tools across **40+ deployed pages and backend services** for Web Wonders 2025.

Technical Skills

Languages: C/C++ (STL), Python, JavaScript, TypeScript | **Frontend:** React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, Django, REST APIs, JWT, WebSockets

AI/ML: Scikit-learn, NumPy, Pandas, Gradient Boosting, RAG, LLMs (Gemini/Groq/Cohere), Sentence Transformers

Databases: MongoDB, MySQL, ChromaDB, Redis, SQLite, SQL (joins, indexing, query optimization)

Infrastructure & Tools: Docker, Git, CI/CD, Vercel, Render, Linux, Uvicorn/ASGI

CS Fundamentals: DSA, System Design, Distributed Systems, Operating Systems, DBMS, Computer Networks, OOP

Positions of Responsibility & Achievements

•Technical Lead — Inspectonly.devs (Web Wonders 2025)

Jun – Aug 2025

Led 4-member team; delivered full-stack competition platform on schedule

•Executive Member — ACM SVNIT Surat

2024 – Present

Organizes coding contests, workshops, and technical events campus-wide

•Mentor & Representative — Nexus SVNIT

2024 – Present

Mentors juniors in DSA, competitive programming, and full-stack development

- **LeetCode Knight** (Max 2005, **600+** problems solved) | **Codeforces** Max Rating: 1360
- **Google Solution Challenge 2026** participant with LogiFlow | **PowerMind Hackathon 2026** with AirHelp
- **CGPA 9.19/10** at SVNIT Surat ,top-performing cohort in B.Tech Artificial Intelligence
