

Ojas Srivastava

+91-7424978046 | srivastavaojas454@gmail.com | github.com/Ojas-Srivastava05 | LinkedIn | Portfolio
B.Tech Artificial Intelligence, SVNIT Surat | **CGPA: 9.19/10** | 2024–2028 | Mumbai / Surat | U24AI028
LeetCode Knight (Max 2039, 600+ solved) | **Codeforces** Max 1360

Education

•Bachelor of Technology in Artificial Intelligence

CGPA: 9.19/10

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

2024 – 2028

- **Relevant coursework:** Probability & Statistics, Linear Algebra, Machine Learning, Data Structures & Algorithms, DBMS, OS, Computer Networks

Projects & Quantitative Engineering

•LogiFlow — Real-Time Logistics & Predictive Analytics Platform

Apr – Present 2026

Python, Scikit-learn, Pandas, NumPy, FastAPI, Redis, Supabase, TypeScript

GitHub | Live

- Built **Gradient Boosting** delay-prediction models on **15,650 train-day** operational records (MAE **22.7 min**, **81%** within 30 min CV); engineered features from timetable, route, and delay history — pattern discovery on structured time-series data.
- Designed **sub-second read paths** (100–400 ms) for hot geometry and ML inference vs. heavy search compute — latency-aware system design analogous to separating signal generation from execution paths.
- Owned **100/100 IRCA tariff validation** suite and **pytest** pipelines; built analytical libraries for corridor pricing, Pareto ranking, and explainability over multi-modal route data.
- **Google Solution Challenge 2026 Global Top 100** | Technical Co-Lead & Railway Pipeline Owner (Neural Foundry).

•Market Data & Investing Toolkit (Personal)

2022 – Present

Python, Pandas, SQL, REST APIs, Linux

Personal

- **3+ years** active Indian **equities & mutual funds** investing; track positions, drawdowns, and sector exposure; use price/volume data and fundamentals to stress-test ideas before deployment.
- Built scripts for portfolio logging, return attribution, and watchlist screening — comfortable exploring datasets for **patterns** and validating hypotheses with code.

•AirHelp — Real-Time AI Systems

2026

Python, FastAPI, WebSockets, RAG, NetworkX, ChromaDB

GitHub

- Shipped low-latency conversational backend (1–3s) with **WebSocket** event streams, graph-based routing (A*), and semantic retrieval — **PowerMind Hackathon 2026**.

Experience

•Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative) — Phulpur Unit, Prayagraj

Jun – Jul 2025

- Developed production **Node.js/MySQL** services with **10+ REST APIs**; optimized SQL queries (indexing, joins) for high-throughput internal workflows (**50+ daily operations**).
- Deployed on **Linux** servers via **Docker** and CI/CD; rigorous unit testing, debugging, and code review before production release.

Technical Skills

Languages: Python, C/C++, SQL, JavaScript, TypeScript

Quant & ML: Scikit-learn, Pandas, NumPy, feature engineering, cross-validation, Gradient Boosting, time-series modeling, data visualization

Systems & Tools: Linux/Unix, Git, Docker, Redis, FastAPI, pytest, algorithmic problem solving, low-latency API design

CS Fundamentals: DSA, probability & statistics, linear algebra, DBMS, OS, networks, OOP

Achievements

- **LeetCode Knight** — Max Rating **2039**, **600+** problems; **Codeforces** Max **1360** — strong algorithmic and problem-solving track record
- **Google Solution Challenge 2026** — **Global Top 100** (predictive ML + production engineering)
- **CGPA 9.19/10**, B.Tech AI, SVNIT Surat; ACM SVNIT executive; mentor for DSA and competitive programming
