SAP UI5 / Fiori Developer | Immediate Joiner | Bengaluru, India

Education

Kalinga Institute of Industrial Technology, Bhubaneswar	2022
<i>B.Tech, Electronics and Instrumentation Engineering</i>	CGPA: 7.48 / 10
Kendriya Vidyalaya IFFCO Phulpur	2018
<i>Central Board of Secondary Education, UP</i>	69%
Kendriya Vidyalaya IFFCO Aonla, Bareilly	2016
<i>Central Board of Secondary Education, UP</i>	83.6%

Experience

SAP UI5 Consultant	2022 – 2024
<i>Gyansys Inc., Bengaluru</i>	
- Developed and enhanced SAP UI5/Fiori applications using XML Views, JavaScript, HTML, CSS, and JSON Models. - Integrated OData services for CRUD operations and dynamic data handling. - Implemented routing, navigation, form validations, value help dialogs, and responsive UI layouts for better usability. - Collaborated with functional consultants to implement business workflows and coordinate UAT. - Resolved production issues and implemented minor enhancements.	

Personal Projects

Sales Order Management – SAP UI5/Fiori Application	March 2023 – March 2024
- Developed a Fiori-based Sales Order app to create, view, update, and track sales orders efficiently. Tools & technologies used: SAP UI5, JSON Model, XML, JavaScript, HTML, CSS, OData Services. - Implemented CRUD operations, form validations, value help dialogs, and master-detail routing. - Developed intuitive layouts and navigation to enhance user experience. - Leveraged AI-assisted development tools such as ChatGPT, Claude AI, and Cursor AI for code optimization, debugging, UI enhancements, and faster development workflows. Output/Achievement: Improved order processing efficiency and reduced errors.	
Purchase Requisition and Approval Workflow – SAP UI5/Fiori Application	Sept 2022 – Feb 2023
- Built a Fiori-based Purchase Requisition app to manage procurement requests and approvals. Tools & technologies used: SAP UI5, JSON Model, XML, JavaScript, HTML, CSS, OData Services. - Developed role-based UI with approval/rejection flows and search/filter functionality. - Created reusable fragments and responsive layouts for better usability. - Worked with SAP CAPM (Cloud Application Programming Model) for backend service integration and handling business logic for sales order workflows. - Utilized AI-powered tools like ChatGPT, Claude AI, and Cursor AI to streamline development, generate reusable code snippets, troubleshoot issues, and improve productivity. Output/Achievement: Streamlined procurement workflow and reduced manual errors.	

Technical Skills and Interests

Languages: JavaScript, HTML, CSS, SQL
AI Tools: ChatGPT, Claude AI, AI-assisted Debugging, Code Generation, Developer Productivity Tools
Developer Tools: SAP Web IDE, Eclipse, Git, JIRA, VS Code, Cursor AI, GitHub Copilot, AI Tools for Developers
Frameworks: SAP UI5, SAP Fiori, Spring (Basic)
Cloud/Databases: SAP Commerce Cloud, OData Services, MySQL (basic)
Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Attention to Detail
Coursework: Web Development, Database Management, Frontend Development
Areas of Interest: SAP UI5/Fiori Development, Frontend Web Development, AI-assisted Development

Positions of Responsibility

Web Development Lead, College Coding Club	Jan 2021 – Dec 2021
<i>Kalinga Institute of Industrial Technology</i>	
Event Coordinator, Tech Fest	Aug 2020 – Nov 2020
<i>Kalinga Institute of Industrial Technology</i>	

Achievements

- Developed a college project portal as Web Development Lead for the Coding Club.
- Organized Tech Fest workshops and events with increased student participation.
