B.Tech Artificial Intelligence, SVNIT Surat | CGPA **8.00** | 2024–28

SUMMARY

Aspiring Software Engineer with foundations in Python, DSA, and full-stack web development (Django, React, JavaScript). Builds end-to-end products spanning authentication, interactive UIs, and AI-assisted study tools. Experienced in team leadership through Web Wonder (Finalist) and departmental coordination at Nexus, SVNIT.

EDUCATION

Sardar Vallabhbhai National Institute of Technology, Surat
Bachelor of Technology — Artificial Intelligence

2024–28
CGPA: **8.00**

PERSONAL PROJECTS

EduAce (Web Application)

Python, Django, HTML, CSS

Live

A web-based personalized study assistant with AI-driven academic support and productivity tools.

- Facilitates students' learning without manually planning studies or searching for academic help.
- Built study-assistant flows for planning support and academic productivity in one web app.

Beneath The Blue (Web Application)

Python, Django, HTML, CSS, JavaScript, Bootstrap

Live

A Django-based platform to promote awareness of ocean and marine life conservation.

- Implemented user authentication, dynamic quiz generation, and score tracking for engagement.
- Built conservation-focused web features for awareness and interactive learning.

EXPERIENCE

Web Wonder Program — Team Lead (Finalist)

- Led a team of four in a competitive web development program focused on real-world problem solving.
- Designed and developed a web project on ocean and marine life conservation (Beneath The Blue).
- Managed task allocation, feature planning, and coordinated the final project presentation.
- Secured a Finalist position among multiple participating teams.

Academic Web Development Project — Frontend Developer

- Worked on a faculty-assigned web development project as a Frontend Developer.
- Designed responsive UIs using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with backend teammates to integrate UI with application logic.
