Software Engineering Intern (Job #200041085) | India — Multiple Locations (On-Site)

B.Tech Artificial Intelligence, SVNIT Surat (CGPA 9.20/10) | May 2028 (one academic term remaining after internship)

Summary

Penultimate-year **Bachelor's degree** candidate in **Artificial Intelligence** (related **Computer Science / Engineering** field) at **SVNIT Surat**, CGPA **9.20/10**. **Software Engineering Intern** with **2+ years of object-oriented programming** in **C++, Python, Java**, and **JavaScript/TypeScript**. Builds **innovative software solutions** with teammates by applying **engineering principles** to complex problems—strong **computer science fundamentals** including **data structures and algorithms** (LeetCode Knight **2048, 711+** solved; Codeforces Specialist **1419**). Experienced **designing, developing, and testing** features with **user requirements, feedback**, and focus on **availability, reliability, efficiency, observability**, and **performance** at scale.

Education

Bachelor of Technology in Artificial Intelligence CGPA: 9.20/10
Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat, India Aug 2024 – May 2028

- Eligibility:** Currently pursuing bachelor's degree in **Computer Science**-related field; **at least one semester/term remaining** after completion of internship (graduating May 2028)
- Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Operating Systems, Computer Networks, DBMS, Distributed Systems

Experience

Software Engineering Intern
IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj, India Jun 2025 – Jul 2025

- Applied **engineering principles** to solve production problems through **sound and creative engineering** (**Node.js**, **Express**, **MySQL**); worked with stakeholders to determine **user requirements** for features automating **50+ daily** workflows.
- Designed, developed, and tested **10+ RESTful APIs**; improved **availability, reliability, efficiency**, and **performance** via optimized **SQL**, indexing, and structured error handling.
- Demonstrated **time management** in a **cooperative team environment**: **unit/integration testing**, peer **feedback**, **code review**, industry **best practices**, **Docker**, and **CI/CD**.

Projects

LogiFlow — Multi-Modal Logistics Platform (Google Solution Challenge 2026, Global Top 106) Apr 2026 – Jun 2026
Python, FastAPI, C++, TypeScript, Next.js, Redis, GCP Cloud Run, pytest GitHub | Live

- Collaborated with teammates to **design, develop, and test** cloud-scale software on **GCP Cloud Run**; quickly learned new tools (Redis, Cloud Run) and incorporated them into delivery workflows.
- Improved **observability** and **performance** (**100–400 ms** read paths); built **pytest** regression suite (**100/100** validations) driving **consistency in monitoring and operations at scale**.

Community Hero — Civic Reporting PWA (Google for Developers Vibe2Ship 2026, Global Top 20) Jun 2026
TypeScript, React, Python, Express, Firebase, GCP Cloud Run GitHub | Live

- Solo-built **real-world** product from requirements through deployment; sought **feedback**, applied **best practices**, and shipped under ambiguous, fast-paced constraints with **growth mindset**.

AirHelp — AI Airport Companion (PowerMind Hackathon 2026) 2026
Python, FastAPI, React, WebSockets, monitoring GitHub

- Engineered real-time services with latency targets for **50–100 concurrent** users; proactively improved **reliability** and response-time **observability** through structured logging.

Technical Skills

Languages (OOP): C++, Python, Java, JavaScript, TypeScript, SQL, C
Computer Science Fundamentals: Data structures, algorithms, object-oriented design, software engineering, operating systems, computer networks
Software Engineering: REST APIs, WebSockets, Docker, CI/CD, Git, pytest, debugging, code review, feedback-driven iteration
Operations at Scale: Availability, reliability, efficiency, observability, performance tuning, monitoring, Redis, GCP Cloud Run, MySQL, MongoDB

Achievements and Leadership

- LeetCode Knight:** Rating **2048, 711+** solved, 32 contests (profile)
- Codeforces Specialist:** Rating **1419, 252+** solved (profile)
- Google Solution Challenge 2026 — Global Top 106; Vibe2Ship 2026 — Global Top 20**
- Executive Member, ACM SVNIT & Mentor, Nexus SVNIT** — collaborative community building and technical mentoring
