Interim Engineering Intern — SW (Job ID 3094028) | Class of 2028

B.Tech Artificial Intelligence, SVNIT Surat (CGPA 9.20/10) | Preferred: Hyderabad, Telangana, India (also open to Bangalore / Chennai / Noida)

Summary

Campus bachelor's degree candidate (B.Tech Artificial Intelligence, Computer Science Engineering—related field, graduating May 2028) seeking Qualcomm **Interim Engineering Intern — SW**. **Software engineer** with strong **C/C++**, **object-oriented design**, **data structures**, and **OS concepts**; builds **real-time** and performance-critical software with excellent **analytical and problem-solving skills**. Experienced **designing and developing software** on **Linux**-style environments, **TCP/IP** networking stacks in application layers, and collaborative delivery in teams. Eager to contribute to **mobile chipset**, **platform software**, **multimedia**, **wireless connectivity**, and **IoT** technology areas at Qualcomm.

Education

Bachelor of Technology in Artificial Intelligence

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat, India

CGPA: 9.20/10

Aug 2024 – May 2028

- **Degree:** Bachelor's in **Computer Science Engineering**—related / technical engineering program (Artificial Intelligence)
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems (**OS concepts**), Computer Networks (**TCP/UDP/IP**), Software Engineering, Embedded & Distributed Systems fundamentals

Experience

Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj, India

Jun 2025 – Jul 2025

- **Designed, developed, and tested** production software (**Linux** server deployment, **Node.js**, **MySQL**) automating **50+ daily** operational workflows with strong **time management** and team collaboration.
- Built **10+ RESTful APIs** over **TCP/IP** HTTP stacks; applied **object-oriented design**, structured debugging, and peer review to improve reliability for internal users.
- Delivered with **unit/integration testing**, **Docker**, and **CI/CD** on **Linux/UNIX**-style pipelines—clear verbal and written communication with cross-functional stakeholders.

Projects

LogiFlow — Performance-Critical Logistics Platform (Google Solution Challenge 2026, Global Top 106)

Apr 2026 – Jun 2026

C++, Python, FastAPI, Linux, TCP/IP, Redis, GCP, pytest

GitHub | Live

- Developed **software** for high-throughput routing across **580+ corridors**; optimized **C++/Python** hot paths to **100–400 ms** latency—relevant to **platform-level SW** performance on resource-constrained paths.
- Built **100/100** automated validation rules and **IoT**-style logistics telemetry pipeline; collaborated in team environment on **software architecture** and module design.

AirHelp — Real-Time Embedded-Style Services (PowerMind Hackathon 2026)

2026

C++, Python, FastAPI, WebSockets, TCP/IP, Linux, monitoring

GitHub

- Implemented **real-time embedded software**—style event loop with **WebSockets** and graph algorithms (**A***) for **50–100 concurrent** users; tuned latency to **1–3s** with **OS**-aware concurrency patterns.

Community Hero — Mobile/Web Platform Software (Google Vibe2Ship 2026, Global Top 20)

Jun 2026

TypeScript, React, Python, Express, Linux, REST/TCP/IP

GitHub | Live

- Shipped **application software** with map-based UI, **multimedia** geo-tagging workflows, and cloud deploy—demonstrating **Android/Linux**-adjacent full-stack platform development under tight deadlines.

Technical Skills

Languages: C, C++, Python, Java, JavaScript/TypeScript, SQL

Core Engineering: **Object-oriented programming & design**, data structures, algorithms, **OS concepts**, analytical & problem-solving skills

Platform & Networking: **Linux/UNIX**, Docker, Git, **TCP/UDP/IP**, HTTP/REST, WebSockets, computer networks, debugging, CI/CD

Interest Areas: Mobile/embedded **platform software**, **multimedia** (audio/video/imaging pipelines), **wireless connectivity** (4G/WiFi/BT concepts), **IoT** systems, device-facing software stacks

Achievements and Leadership

- **LeetCode Knight:** Rating **2048**, **711+** solved — rigorous DSA & systems-style problem solving
- **Codeforces Specialist:** Rating **1419**, **252+** solved (profile)
- **Google Solution Challenge 2026 — Global Top 106; Vibe2Ship 2026 — Global Top 20**
- **Executive Member, ACM SVNIT & Mentor, Nexus SVNIT** — team collaboration, mentoring, and communication
