Software Engineering Intern (May/June 2027) | Preferred Locations: Bengaluru, Hyderabad, Pune

Summary

Penultimate-year **Bachelor of Technology** student in **Artificial Intelligence** (related **Computer Science** field), SVNIT Surat, CGPA 9.20/10, graduating 2028. Software engineer with experience in **data structures**, **algorithms**, **software design**, **Python**, **C**, **C++**, **JavaScript**, **distributed systems**, **concurrency**, **multi-threading**, and **production debugging**. Built AI-integrated, **scalable** systems with **performance** and **reliability** focus. LeetCode Knight (2048, 636 solved) | Codeforces Specialist (1419, 246 solved).

Education

Bachelor of Technology in Artificial Intelligence

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat, India

CGPA: 9.20/10

Aug 2024 – May 2028

- **Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems, Distributed Systems, Machine Learning, Probability and Statistics, Software Design

Experience

Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative), Phulpur Unit, Prayagraj, India

Jun 2025 – Jul

2025

- Architected and deployed a **production** full-stack application using **Node.js**, **Express.js**, and **MySQL database** automating **50+** **daily** enterprise workflows with JWT authentication and input validation.
- Designed **10+ RESTful APIs** with optimized SQL queries, indexing, and joins; improved **system performance** and data reliability for internal users.
- Delivered through **unit testing**, integration testing, **debugging**, peer code review, **Docker** containerization, and **CI/CD** pipelines.

Projects

LogiFlow – Multi-Modal Logistics Platform (Google Solution Challenge 2026, Top 100)

Apr 2026 –

Present

Python, FastAPI, TypeScript, Next.js, Redis, Supabase, Scikit-learn, Gemini, Leaflet

GitHub | Live

- Co-led delivery of **Google Solution Challenge Top 100** platform; architected and deployed core backend to **GCP Cloud Run** (configured with memory/CPU optimization) with dynamic Google OAuth integration.
- Designed **progressive result streaming** over HTTP and **Supabase gzip caching** for feeder legs, bypassing serverless function timeouts and dropping query latencies to **100–400 ms** for hot read paths.
- Trained Gradient Boosting delay model (15.6k train-days; MAE 22.7 min) and built an automated **pytest regression suite** containing **100/100** validated tariff business-rules checks.

AirHelp – AI Airport Companion (PowerMind Hackathon 2026)

2026

Python, FastAPI, React, WebSockets, ChromaDB, Sentence Transformers, RAG

GitHub

- Shipped an AI companion with graph-based **A* indoor navigation** on custom Terminal 2 walking graphs, achieving **1–3s latency** for 50–100 concurrent users.
- Automated local execution of **offline Text-To-Speech (Piper)** and restructured backend service lifecycle using FastAPI **lifespan events** to manage persistent connection states.

RangRiti – Full-Stack Marketplace

Jun 2025 – Aug

2025

Node.js, Express.js, MongoDB, REST APIs, Cloudinary

GitHub | Live

- **Technical Lead** for a 4-member team; designed and shipped a **complex production system** with 40+ pages, booking/commerce flows, and owned backend **architecture**.

Technical Skills

Programming Languages: Python, C, C++, JavaScript, TypeScript, SQL

Computer Science Foundations: Data structures, algorithms, software design, operating systems, computer networking, distributed systems, system architecture

Systems and Backend: REST APIs, WebSockets, Redis, async and parallel pipelines, concurrency, multi-threading, synchronization, JWT, Docker, CI/CD, GitHub Actions

AI and Data: Machine learning (Scikit-learn), feature engineering, RAG, embeddings, LLM integration, MySQL, MongoDB, Supabase, Pandas, NumPy

Engineering Practices: Performance optimization, reliability testing, debugging, code review, pytest, unit and integration testing

Achievements and Leadership

- **LeetCode Knight:** Contest rating 2048, 636 problems solved, 32 contests (leetcode.com/Oju_Srivastava)
- **Codeforces Specialist:** Rating 1419 (max 1419), 246 unique problems solved (codeforces.com/profile/Oju)
- **Google Solution Challenge 2026 – Global Top 100** (LogiFlow); Technical Co-Lead and Railway Pipeline Owner
- **Executive Member, ACM SVNIT and Mentor, Nexus SVNIT** (2024–Present): DSA workshops, coding contests, project mentoring
