EDUCATION

SVNIT Surat	B.Tech - Artificial Intelligence	9.43 CGPA	2023-Present
Loyola High School, Patna	12th (CBSE)	95.2%	2023
Loyola High School, Patna	10th (CBSE)	98.2%	2021

EXPERIENCE

- Wells Fargo** *Hyderabad, Telangana*
Technology Program Intern May 2026 - July 2026
 - Working within the **Enterprise Finance Technology (EFT)** Line of Business, in the **Operations Insights (OI)** team, on building the **Message Queues (MQ) Situation Room** — a centralized observability platform for real-time monitoring of enterprise messaging infrastructure.
 - Engineered the platform to provide **proactive alerting, queue health visualization, and anomaly detection** across MQ channels, enabling faster incident triage and reducing operational risk through consolidated, real-time situational awareness.
- Dholakia Ventures** *Surat, Gujarat*
AI Systems & Development Intern Feb 2026 - May 2026
 - Developed a **VC deal flow management platform** using **Next.js**, **Supabase**, and **TypeScript** with **Kanban-based pipeline, real-time collaboration, and role-based access control** — streamlining investment screening from sourcing to portfolio tracking.
 - Integrated **AI-powered email ingestion** using **Gmail API** and **Gemini 2.0 Flash** for automated company extraction, and built a **portfolio analytics dashboard** - reducing investment decision time from 1 week to a few hours through AI-driven automation.
- Amazon ML Summer School 2025** *Remote*
Participant Aug 2025
 - Selected among top students across India to attend **Amazon's flagship ML training program** and engaged in interactive Q&A sessions with senior Amazon Scientists, gaining insights into real-world ML applications and industry innovation.
 - Completed 8 intensive modules led by Amazon Scientists covering: **Supervised Learning, Deep Neural Networks, Dimensionality Reduction, Unsupervised Learning, Generative AI & LLMs, Sequential Learning, Causal Inferencing, and Reinforcement Learning.**

PROJECTS

- Veyo AI | Next.js, WebRTC, FFmpeg** *GitHub Repository*
AI-Powered Automated Video Testimonial Generator Feb 2026
 - Designed and developed an **AI-powered autonomous testimonial generation system** using **Next.js**, **WebRTC**, and **FFmpeg**, enabling real-time customer interviews with an AI avatar and reducing manual video production effort by **~80%** through end-to-end automation.
 - Built a **scalable video processing pipeline** integrating **Whisper (speech-to-text)**, **ElevenLabs (text-to-speech)**, and **LLM-based adaptive questioning**, implementing highlight extraction, silence trimming, face tracking, and auto-captioning to generate **Instagram-ready 9:16 reels** with zero manual editing.
- TrueVoice | Deep Learning, CNNs** *GitHub Repository*
Real-Time Deepfake Voice Authentication Bypass Detection Jan 2026 - Feb 2026
 - Developed a **real-time AI voice deepfake detection browser extension**, enabling live analysis of browser audio (Google Meet, Zoom, YouTube) using an end-to-end pipeline for audio capture, **16kHz** resampling, spectrogram feature extraction, and API-based inference, achieving **95.14%** detection accuracy within **~15 seconds**.
 - Designed and deployed an ensemble of deep learning anti-spoofing models **Mel-spectrogram CNN, LFCC-CNN, RawNet** on Hugging Face, optimizing decision thresholds to reach **95.14% accuracy** and **2.82% EER** on ASVspoof-style benchmarks.

SKILLS

Programming & Development: C, C++, Python, JavaScript, HTML, CSS, React, Tailwind CSS

Databases & Tools: MySQL, Supabase, Hadoop, Spark, Hive, Pig, HBase, Mahout

AI/ML & Data Science: Artificial Intelligence, Machine Learning, Deep Learning, Reinforcement Learning, Natural Language Processing, Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch, PySpark

Core CS Subjects: Data Structures and Algorithms, DBMS, OOPS, Computer Networks, Operating Systems

ACHIEVEMENTS

- Winner, HackTheTank 3.0:** Secured 1st place among 45 teams and 1000+ participants Feb 2026
- Runner Up, DotSlash 9.0:** National-level hackathon organized by Ashine, SVNIT Mar 2026
- Finalist, Echelon 2026:** Ranked among the top 10 teams out of 45 teams Jan 2026
- LeetCode Rating:** 1843, top 6.1% of problem solvers Ongoing
- Codeforces Max Rating:** 1244 (Pupil) Ongoing
