Education

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

B.Tech, Artificial Intelligence (Engineering) — Bachelor's degree in Engineering, Surat, India

2024 – 2028

CGPA: 9.20/10

Shiv Jyoti Convent School, Kota

Senior Secondary (Class XII), CBSE

2024

Percentage: 95.80%

St. Joseph's College, Prayagraj

Secondary Education (Class X), ICSE

2022

Percentage: 97.20%

- **Expected Graduation:** May 2028 (eligible window: March 2028 – August 2028)
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming (Java), Software Engineering, DBMS, Operating Systems, Computer Networks
- **Availability:** Summer 2027 Technology Program Internship (May 2027 – August 2027) | **6+ months** equivalent software experience through production internship, coursework, and shipped projects

Experience

Software Engineering Intern

IFFCO (Indian Farmers Fertiliser Cooperative) — Phulpur Unit, Prayagraj, India

Jun 2025 – Jul 2025

- Delivered production enterprise web services through the full **Software Development Life Cycle (SDLC)** with cross-functional stakeholders: requirements gathering, design, implementation, **unit testing**, **integration testing**, and deployment (**Python**, **Node.js**, **MySQL**, **SQL**) on **Linux** with **Docker** and **CI/CD**.
- Built **10+ RESTful APIs** with optimized **SQL** (indexing, joins); automated **50+ daily operational workflows** with **secure coding** (JWT authentication, input validation, structured error handling) for internal production users.
- Conducted **debugging**, peer **code review**, and production issue triage; documented APIs and communicated technical concepts in **English** to managers and non-engineering stakeholders in an **Agile** delivery environment.

Projects

LogiFlow — Google Solution Challenge 2026 (Global Top 106)

GitHub | Live

Python, FastAPI, SQL, JavaScript, Next.js, Redis, GCP Cloud Run, pytest, Git

- Co-led backend development on **GCP Cloud Run**; engineered **100–400 ms** read paths across **580+ corridors** and **9,526 stations** using **Redis** caching and reusable service modules.
- Wrote **pytest** regression suite (**100/100** business-rule validations); trained ML delay model on **15,650 train-days** (MAE **22.7 min**) with documented **REST APIs** for team delivery.

Community Hero — Google for Developers Vibe2Ship 2026

GitHub | Live

TypeScript, React, Python, Express, Firebase, Cloud Run, REST APIs, Postman

- Solo-built React PWA and Express API on **Cloud Run** with **Firestore**, **Firebase Auth**, and **REST endpoints** validated via **Postman**; delivered geo-tagged reporting, admin workflows, and map-based triage.
- Shipped Gemini-powered categorization, SLA routing, community verification, and Open311 export—all eight hackathon features deployed to production with structured error handling.

AirHelp — PowerMind Hackathon 2026

GitHub

Python, FastAPI, React, WebSockets, SQL, NetworkX, RAG

- Built FastAPI backend with **WebSocket** real-time alerts and graph-based **A*** navigation; tuned **1–3s** response latency for **50–100 concurrent** users with **95%+** navigation accuracy.

Technical Skills

Programming & Development: Python, Java, SQL, JavaScript, TypeScript, C++, C, HTML, CSS

Databases & Tools: MySQL, PostgreSQL, MongoDB, Redis, Docker, Git, GitHub Actions, CI/CD, REST APIs, GCP Cloud Run, Linux

Software Development Life Cycle (SDLC): Requirements analysis, design, coding, unit testing, integration testing, debugging, code review, documentation, Agile, reliable code, test coverage

Core Computer Science: Data structures, algorithms, object-oriented programming, DBMS, operating systems, computer networks, logical and systematic problem-solving, analytical problem-solving

Achievements

- **LeetCode Knight** — rating **2048**, **637+** problems solved; **Codeforces Specialist** — rating **1419** Ongoing
- **Google Solution Challenge 2026** — Global Top 106 (LogiFlow, Neural Foundry) Jun 2026
- **Google for Developers Vibe2Ship 2026**; PowerMind Hackathon 2026 (AirHelp); McKinsey.org Forward Fellow 2026
- Executive Member, ACM SVNIT; **DSA Mentor & Representative**, Nexus SVNIT; Technical Lead, RangRiti (Web Wonders 2025) 2024–Present
