

GEP Worldwide — Drive Week Plan

Aug 14–19, 2026 | Virtual | 100% PPO

Ojas Srivastava | SVNIT AI | CGPA 9.20 | Hyderabad / Mumbai

Role: Software Engineer / Associate Data Scientist | Stipend Rs. 50k/mo | CTC Rs. 20L

Schedule (CDC mail)

- Mon 17 Aug** 3:00 PM — PPT (1 hr). **Same day** — proctored OA (MCQ + coding), link after PPT.
Teams: <https://teams.microsoft.com/meet/272149495277849?p=arnZQEceqZhn0xkI8w>
- Tue 18 Aug** R1 — Technical (DSA / OOP / resume)
- Wed 19 Aug** R2 — Functional / projects (+ HR likely)

Prep sprint (before Mon)

- Fri 14** Execute `GEP_5_Day_Plan.pdf` Day 1: AI MCQs + DBMS depth + OOP
- Sat 15** Day 2: Named algos + Easy coding + JS quiz + OS MCQs
- Sun 16** Day 3: Projects deep + full mock OA (90 min) + print resume

Mon Aug 17 — Drive day

3.1 Before 3 PM

- Print resume (`ojas_srivastava_gep_technology_intern.pdf`)
- Laptop charged; stable internet; webcam + mic tested; quiet room
- Phone away; ID ready for proctoring
- Warm-up: 1 Easy (Two Sum) + Kadane dry-run once
- GEP pitch ready: AI procurement & supply chain; Quantum, SMART, NEXXE

3.2 During PPT

- Note products, stack, intern work; ask 1 smart question if Q&A opens

3.3 During OA (worst-case sections)

- AI MCQs (intro) OS + DBMS MCQs Aptitude/logical (if any)
- 1 Easy–Medium coding (strings, hashing, Kadane-style) JS fill-in-blanks
- Time-box each section; state approach in code comments; recheck edge cases

3.4 After OA

- No discussion with peers; light revision: projects + OOP + one JOIN query; sleep early

Tue Aug 18 — R1 playbook

- Clarify → approach → code → dry-run → edge cases (**never silent**)
- OOP pillars, stack/queue/list/tree, sorting names, SQL JOIN by hand
- Algos by name: Kadane, Binary Search, BFS/DFS, Two Sum, Fibonacci in range
- Resume walkthrough: IFFCO production, LogiFlow ML+backend, Community Hero, AirHelp

Wed Aug 19 — R2 + HR

- Every resume bullet survives 2–3 follow-ups (role, impact, trade-offs)
- “Why SWE from AI?” → ship production systems; AI adds intelligence to them
- Location locked: **Hyderabad** or **Mumbai** (#1 only)
- End Q: “How does GEP use AI agents in procurement at scale?”

Folder contents (execute only these)

- `GEP_5_Day_Plan.pdf` — daily blocks + verified links
- `GEP_Prep_Roadmap.pdf` — OA format + interview playbook
- `GEP_Question_Practice_Roadmap.pdf` — tick-list
- `GEP_OA_Interview_Cheat_Sheet.pdf` — one-page day-of reference
- `ojas_srivastava_gep_technology_intern.pdf` — resume

Anti-fail

- No new research tabs No hard CP grind No resume lies No silent coding

Compiled for GEP Worldwide virtual campus drive, SVNIT CDC Aug 2026.
