EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat <i>B.Tech. in Artificial Intelligence</i>	CGPA: 8.60/10.00
Sri Chaitanya Junior Kalasala, Nizampet, Hyderabad <i>Board of Intermediate Education - Class XII</i>	2024 98.7%
Jeevadhan High School <i>State Board of Secondary Education - Class X</i>	2022 CGPA: 10/10

TECHNICAL SKILLS

Languages: C++, C, Python, JavaScript, SQL
Web Development: HTML, CSS, React.js, Node.js, Express.js
Machine Learning: Machine Learning, PyTorch, Retrieval-Augmented Generation (RAG)
Tools: Git, GitHub, Linux, VS Code

EXPERIENCE

Department of Artificial Intelligence, SVNIT Surat

Research

- Working on AI-driven healthcare research for automated ENT disease detection and severity assessment.
- Developed medical image classification and segmentation pipelines using Python and PyTorch.
- Implemented multimodal feature fusion and explainable AI techniques for interpretable disease prediction.
- Performed preprocessing, augmentation, training, evaluation, and model optimisation.

PROJECTS

Personal AI Knowledge Assistant

React.js, Node.js, Express.js, Gemini API, RAG

- Developed a document-grounded AI assistant that accepts PDF uploads and supports natural-language queries over document content.
- Implemented PDF text extraction, chunking, Gemini embeddings, and cosine-similarity based semantic retrieval.
- Built REST APIs with Node.js and Express.js and a React.js interface for document upload and question processing.

Attention-Based Multimodal Explainable AI Framework for ENT Disease Detection

Python, PyTorch, Machine Learning

- Designed a multimodal AI framework for automated ENT disease detection and severity assessment.
- Developed classification, segmentation, and multimodal feature-fusion pipelines for multiple ENT modalities.
- Integrated explainable AI techniques to improve interpretability of model predictions.

Velure

HTML, CSS, JavaScript, React.js

- Developed a responsive web application with reusable React components and dynamic user-interface interactions.
- Focused on responsive design, performance, state management, and clean interface development.

POSITIONS OF RESPONSIBILITY

National Service Scheme (NSS), SVNIT Surat

Volunteer

- Participated in institute-level social initiatives, community activities, and event coordination.
