EDUCATION

- **Sardar Vallabhbhai National Institute of Technology** 2024 - 2028
B.Tech in Artificial Intelligence CGPA: 8.35 Surat

PROJECTS

- **Joy Juncture: Full-Stack Gaming E-Commerce Platform** January 2026
Next.js, MongoDB, Firebase Auth, Tailwind CSS, Cloudinary, Framer Motion 
 - Engineered a full-stack gaming e-commerce platform under **Google Winter of Code (GWoC)** using Next.js, MongoDB, Firebase Auth, and Tailwind CSS.
 - Integrated Razorpay payments, coupon-based discounts, loyalty rewards, and secure user authentication.
 - Built backend APIs and a comprehensive admin dashboard to manage products, orders, users, and promotional coupons.
- **Traffic Demand Forecasting System | Flipkart Gridlock Hackathon** June 2026
Machine Learning, LightGBM, XGBoost, CatBoost 
 - Built a traffic demand forecasting system using an ensemble of LightGBM, XGBoost, and CatBoost models, achieving **92.27%** accuracy
 - Applied feature engineering and geospatial clustering techniques to enhance demand prediction across diverse traffic conditions.
 - Implemented an end-to-end machine learning pipeline covering preprocessing, training and validation.
- **Privacy-Preserving Machine Unlearning in Medical Image Classification** May 2026
Deep Learning, PyTorch, DenseNet121, Machine Unlearning 
 - Developed a **Machine Unlearning** framework for multi-label chest X-ray classification using DenseNet121.
 - Achieved a **Macro-Average AUC of 83.94%** on the NIH Chest X-Ray dataset across 15 disease classes.
 - Implemented gradient-based influence scoring for efficient sample unlearning, obtaining a Forget Loss of **5.38** and a Retain Loss of **1.58** without full retraining.

SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, SQL
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Computer Networks, Operating Systems
- **Web Technologies:** Node.js, Next.js, React.js, HTML, CSS
- **AI:** Machine Learning, Deep Learning
- **Database:** MongoDB, MySQL
- **Competitive Programming:** CodeChef (Div 3, Rating-1500), LeetCode (Rating-1679)
- **Tools:** Git, GitHub, Vercel, VS Code, Kaggle, Google Colab

POSITIONS OF RESPONSIBILITY

- **Nexus SVNIT | Problem Setter & Mentor** January 2026 - April 2026
 - Designed and curated coding problems and mentored students in DSA to strengthen problem-solving and algorithmic thinking skills
- **Google Developer Groups on Campus | Junior Developer** October 2025 - April 2026
 - Organized and executed **30-hour** flagship hackathon ("Hack The Tank") for a cohort of **100+** participants.
- **Association for Computing Machinery | Executive** September 2025 - April 2026

HONORS & ACHIEVEMENTS

- Selected as a finalist in the Google Winter Of Code, conducted by the Google Developer Groups on Campus club.
- Achieved a **top 4%** finish among 25,000+ competing participants in the Flipkart Gridlock Hackathon..
- Secured **573** rank in CodeChef Starters 246 (Div 3).
- Secured **561** rank in LeetCode Biweekly Contest 187.
