Career Objective

Motivated and enthusiastic B.Tech Artificial Intelligence student with a strong foundation in programming, data structures, and problem-solving. Passionate about software development, artificial intelligence, and continuous learning. Seeking internship opportunities to apply my technical skills, contribute to meaningful projects, and gain practical industry experience.

Projects

Loan Prediction using Machine Learning

- Built a machine learning model to predict loan approval using a public loan prediction dataset.
- Performed data preprocessing, handled missing values, and encoded categorical features.
- Trained and evaluated classification models using Python, Pandas, NumPy, and Scikit-learn.

Classification Models

- Implemented and compared machine learning classification algorithms including Logistic Regression, Decision Tree, K-Nearest Neighbors, and Random Forest.
- Evaluated model performance using metrics such as Accuracy, Precision, Recall, and F1-Score.
- Visualized and interpreted the performance of different classifiers.

Regression Models

- Implemented regression algorithms including Linear Regression, Decision Tree Regressor, and Random Forest Regressor.
- Trained models on real-world datasets and evaluated them using MAE, MSE, RMSE, and R^2 Score.
- Compared model performance and analyzed prediction errors through data visualization.

Technical Skills

Programming Languages: C, C++, Python

Libraries: NumPy, Pandas, Matplotlib, Scikit learn

Tools: VS Code, Jupyter Notebook

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Machine Learning, Data Science

Education

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat
Bachelor of Technology in Artificial Intelligence

2024 – Present
CGPA: 8.22

Higher Secondary (Class XII)
Maharashtra State Board

2024
76.67%

Secondary School (Class X)
Maharashtra State Board

2022
92.4%

Extracurricular Activities

- Participated in inter-year cricket tournament.
- Experienced in coordinating and managing virtual football teams, including player selection, match planning, and team organization.
- Strong interest in sports management, leadership, and organizing team activities.
