Aryabhata High School , Warangal

PROJECTS

GWOC - Basho by Shivangi Dec 2025 - Jan 2026
[GitHub Repository](#) | [LIVE Website](#)
Full-Stack E-Commerce Website

- Built a full-stack E-commerce platform using **Next.js (frontend)** and **Django (backend)**
- Features: **user authentication (email + Google login)**, **product listing**, **cart management**, **order workflow**
- Integrated **Razorpay payment gateway** for secure transactions
- Developed **admin dashboard** for product, order, and user management
- Designed and consumed **REST APIs** to connect frontend with backend services
- Deployed on **Vercel (frontend)** and **Hugging face (backend)** with **PostgreSQL database**
- Implemented **JWT authentication**, **Google OAuth 2.0 login**, and **email verification (via Brevo)** for secure access
- Leveraged Django's **built-in CSRF protection** for backend security
- Used **Git and GitHub** for version control and collaborative development

Himalayan Florals Mar 2025 - April 2025
Local E-Commerce Website (Academic Project)

- Designed and built a basic flower shop website for learning purposes
- Includes bouquet customization, personalized messages, and address input for delivery
- Developed using Django (backend), HTML, CSS, and JavaScript (frontend)
- Runs on localhost; not deployed publicly

SKILLS

- **Programming Languages:** C, C++, Python, MySQL
- **Web Development:** Django, HTML, CSS, Next.js
- **Tools & Platforms:** Git, GitHub, Anaconda, VS Code
- **Data Analysis & Visualization:** NumPy, Pandas, Matplotlib, Seaborn

COURSE WORK

C | Data Structures | Python | HTML | CSS | MySQL | DBMS | Algorithms
