PROFESSIONAL SUMMARY

Eager to learn and apply AI/ML concepts by building innovative projects, exploring real-world applications, and continuously improving problem-solving skills. Looking forward to opportunities that allow me to contribute, gain practical experience, and grow in the field of AI and software development.

EDUCATIONS

National Institute of Technology, Surat | Surat, India
B.Tech in Artificial Intelligence

2024 - 2028
CGPA : 7.51/10

PROJECTS

StockFlow – Inventory & Order Management | 🐙 Github

Jun 2026 - Jul 2026

- Developed a full-stack inventory and order management application using React, Express.js, PostgreSQL, and Prisma ORM.
- Implemented secure user authentication using JWT with protected routes and persistent login sessions.
- Designed complete CRUD operations for products with search, filtering, and SKU validation.
- Developed inventory features including stock-in, stock-out, stock adjustment, and stock movement history.
- Implemented customer order creation with automatic inventory updates and order status tracking.
- Built a responsive UI with reusable React components, Context API, Axios, and Tailwind CSS.

Technologies / Tools Used : React, Node.js, Express, PostgreSQL, Prisma

Legality AI | 🐙 Github

Dec 2025 - Jan 2026

- Built an AI-powered legal contract analysis platform that automatically detects risky clauses in uploaded PDF contracts and suggests safer alternatives
- Designed a multi-agent adversarial system where three AI agents debate each flagged clause to deliver a balanced and transparent risk verdict
- Implemented a RAG pipeline with semantic search against 640+ verified legal clauses to accurately identify high-risk contract patterns
- Developed compound risk detection to identify dangerous interactions between multiple clauses across an entire contract
- Built an admin portal with secure authentication, user feedback collection, and batch vector sync for continuous model improvement

Technologies / Tools Used : Python, React, ChromaDB, FastAPI

SKILLS

Programming Languages : C++, Python, JavaScript

Core Subjects : Operating Systems, Data Structures & Algorithms, DBMS, Machine Learning, Object-Oriented Programming

Libraries : NumPy, Pandas, Matplotlib, Seaborn

Databases : MySQL, MongoDB

Tools : Git, GitHub

Web Technologies : HTML, CSS, React.js, Node.js, Express.js

CERTIFICATIONS

- Received a Certificate of Recognition for reaching the Final Round of the Legality AI competition.

POSITIONS OF RESPONSIBILITY

Executive Member -ACM Student Chapter, NIT SURAT

September 2025-April 2026
