PROFILE

B.Tech undergraduate in Artificial Intelligence at NIT Surat (CGPA: 7.46) with strong interest in software engineering and computer science fundamentals. Experienced in full-stack development, team collaboration, and algorithmic problem solving. Actively learning Machine Learning and passionate about building AI/ML-based solutions.

EDUCATION

National Institute of Technology, Surat <i>B.Tech in Artificial Intelligence (CGPA: 7.46/10)</i>	Surat, India 2024 – 2028 (<i>Expected</i>)
Jawahar Navodaya Vidyalaya, Gandhinagar <i>CBSE Class XII ,Score: 84.20%</i>	Gandhinagar, India 2022 – 2023
Jawahar Navodaya Vidyalaya, Narmada <i>CBSE Class X ,Score: 92.8%</i>	Narmada, India 2020 – 2021

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, SQL

Web Technologies: React, Node.js, Express.js, Tailwind CSS

Tools & Platforms: Git, GitHub, MongoDB

Completed foundational coursework in Programming, Data Structures, and Computer Science fundamentals

Core Concepts: Data Structures and Algorithms, DBMS

PROJECTS

- Weatherly** | Django, OpenWeatherMap API, Leaflet.js, Chart.js, Tailwind CSS | [Code](#) 2025
- Developed a full-stack weather forecasting platform using Django and Python, enabling users to search and retrieve real-time weather data and 5-day forecasts for cities globally.
 - Integrated OpenWeatherMap API to fetch meteorological data and implemented Chart.js to visualize temperature trends and forecast analytics dynamically.
 - Incorporated Leaflet.js to render interactive geospatial maps, providing users with visual location context alongside weather conditions.
 - Implemented a secure user authentication system (Login/Signup) and designed a responsive, glassmorphism-styled UI using Tailwind CSS for an enhanced user experience.
- Basho by Shivangi** | Next.js, Firebase, Razorpay, Tailwind CSS, Framer Motion | [Code](#) 2025
- Built a full-stack e-commerce platform for handcrafted pottery using Next.js and Firebase, featuring a custom admin dashboard for managing inventory, orders, and workshop bookings.
 - Integrated Razorpay payment gateway to enable secure online transactions and implemented real-time cart and wishlist functionality for a seamless shopping experience.
 - Designed an immersive, high-performance UI using Tailwind CSS and Framer Motion, incorporating smooth scrolling (Lenis) and interactive animations to reflect the brand's aesthetic.
 - Developed automated workflows including PDF invoice generation (jsPDF) and email notifications (Nodemailer) to streamline order processing and customer communication.

ACHIEVEMENTS

Participated in Google Winter of Code (GWOC), contributing to open-source projects

Solved 350+ problems on Data Structures and Algorithms across LeetCode

POSITIONS OF RESPONSIBILITY

Executive, Research and Innovation Affairs Council (RIAC) – NIT Surat

Member, Nexus – NIT Surat

Technical Co-head, Mindbend (Technical Fest of NIT Surat)
