Professional Summary

Motivated Computer Science student seeking a software engineering internship to apply skills in Python, data analysis, and machine learning while contributing to real-world projects and growing through hands-on industry experience.

Education

B.Tech – Computer Science and Engineering

2024 – 2028

National Institute of Technology (NIT), Surat

Certification: Google Cybersecurity Professional Certificate (Coursera) [\[Certificate\]](#)

2025

Class XII & X (CBSE)

2024

Gulf Indian School, Kuwait (*AISSCE: 95%*)

Core Skills

Languages: Python, Java, C/C++, SQL, JavaScript, HTML/CSS

Frameworks & Tools: React 19, FastAPI, Node.js, PostgreSQL, MongoDB, Docker, Git, Linux, Odoo 19, RAG, Gemini

Experience

Odoo Development Intern – Walnut Software Technologies (Kuwait)

July 2026 – July 2026

- Developed custom **Odoo 19** modules using Python and XML, implementing models, views, and business logic.
- Engineered ERP workflows with **Form, Tree, Kanban, and Search views**, integrating ACLs, chatter, and validations.
- Utilised Git for version control and gained experience in debugging, deployment, and ERP application development.

Cybersecurity Intern – Kuwait Oil Company (Kuwait)

June 2025 – July 2025

- Gained hands-on exposure to SOC operations, including threat monitoring, log analysis, and incident documentation.
- Assisted in penetration testing activities through basic vulnerability scanning and reporting under supervision.
- Learned security architecture and practices across corporate, SCADA, and integrated security networks.
- Developed foundational understanding of fibre optics, wireless and voice communication, and enterprise networking.

Projects

Unhinged – Book Dating Web Platform

- Built and deployed an interactive book dating platform for the Literary & Affairs Committee (LAC), handling UI/UX, backend integration, and deployment.
- Achieved adoption by **300+ students**, generating **1,500+ swipes** and **200+ matches**.

VoteByte – Secure Online Voting Platform

- Developed a full-stack voting platform using React, Node.js, Express, Prisma, and PostgreSQL, supporting multiple elections, **50+ candidates**, **300+ users**, JWT auth, and role-based access control.
- Implemented biometric face verification using face-api.js to ensure one vote per user, with live voting and result analytics.

Genesis – AI Real Estate Investment Analyzer

- Built an AI-powered real estate platform using a **Retrieval-Augmented Generation (RAG)** model to generate contextual property insights from financial and external data sources.
- Implemented **ROI, cap rate, cash flow, and break-even** analysis; secured **1st place among 20 teams**.

MindSettler – Mental Wellness Support Platform (GWOC)

- Developed a **full-stack mental wellness platform** as part of **Google Winter of Code (GWOC)**, enabling users to access mental health resources and community features.
- Built frontend and backend using **React.js, Node.js, Express.js, and MongoDB**, implementing database operations and performance optimisations for a scalable experience.

PetroMind – AI Industrial Intelligence Platform

- Built a full-stack AI platform using **FastAPI, React 19, Google Gemini**, and **RAG** that enables plant engineers to query **17 industrial data sources** in natural language, delivering citation-backed insights across **300+ assets**.
- Engineered a hybrid retrieval pipeline across **16 databases** (DuckDB + ChromaDB), integrating predictive risk scoring and compliance analysis for equipment failures and regulatory gaps; validated with **228 automated tests (100% pass rate)**.
- Developed dashboards with **D3.js** knowledge graphs, AI copilot, and analytics; deployed via **Docker, OIDC**, and **RBAC**.

Certifications & Achievements

- Investathon (Burgan Bank Kuwait):** Secured **3rd place** in a global stock market simulation and won **500 KWD**, showcasing analytical thinking and decision-making under pressure.
- Model United Nations (MUN):** Received multiple **Best Delegate** awards at inter-school and inter-college conferences.
- Chess:** National-level chess player during school, demonstrating strategic thinking, focus, and competitive discipline.

Leadership & Activities

- Team Lead, LockIn Cycles (Campus Startup):** Led a student team in planning and piloting a campus cycle-sharing initiative, gaining hands-on experience in teamwork and execution.
- Toastmasters International:** Active member participating in prepared speech and evaluation sessions.
