## EDUCATION

- **Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat**  
Bachelor of Technology (B.Tech) in Computer Science and Engineering  
2024 – Present  
CGPA: 7.39
- **Bright Riders School, Abu Dhabi, UAE**  
CBSE Senior Secondary (Class XII) – 2024

## TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript, SQL
- **Web Development:** React.js, HTML, CSS, JavaScript, Framer Motion
- **Databases:** MongoDB, Firebase Firestore, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code,
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Responsive Web Design,DBMS,Microprocessor
- **Strengths:** Problem Solving, Analytical Thinking, Observation, Communication

## EXPERIENCE

- **Design Team Member & Volunteer**

TEDx SVNIT. Present. Created digital creatives and visual assets for TEDx events. Collaborated with event teams to support branding and promotional activities. Assisted in event coordination and execution.

- **Design Team Member**

Entrepreneurship Cell (E-Cell), SVNIT. Designed social media content.

- **Finance Sponsorship Team**

SPARSH – SVNIT. Coordinated with sponsors and local businesses for event partnerships. Assisted in sponsorship outreach and relationship management.

- **Suit-Up Event Manager**

Mindbend, SVNIT. Managed logistics and participant coordination for the Suit-Up competition. Supported event planning and smooth execution.

- **Peer Mentor – Data Structures & Algorithms**

Nexus Club, SVNIT. Mentored a group of first-year students through a peer-learning initiative focused on Data Structures and Algorithms. Conducted problem-solving sessions and explained fundamental DSA concepts, including arrays, linked lists, stacks, queues, trees, and recursion.

## PROJECTS

- **Fake Account Detection System (Echelon AI/ML Hackathon)**

Developed an AI-based system to identify suspicious social media accounts using behavioral signals and machine learning. Achieved approximately 80% detection accuracy; currently improving performance using real-world data.

- **Finora – Personalized Finance Management App**

Built a mobile application for expense tracking, budgeting, and financial insights using React Native and Firebase. Designed intuitive dashboards and categorization features to help users monitor spending habits.

- **Driver Drowsiness Detection System**

Developed an AI-powered driver monitoring system using computer vision and machine learning techniques. Analyzed head tilt angle, angular velocity, and facial movement patterns to detect fatigue.

- **Web Wonders**

Developed an interactive ocean exploration website featuring dynamic depth-based visualizations and animations. Implemented hover-based marine life information panels and responsive user interfaces.

- **Nari Shakti**

Developed a women-focused platform promoting safety and accessibility through technology. Selected among the Top 12 teams out of 50+ participating teams.

- **Full-Stack Web Application (In Progress)**-Developing a full-stack web platform with authentication, database integration, API development, and responsive user interfaces using modern web technologies.

- **AI Resume Analyzer (In Progress)**-Building an NLP-powered tool that evaluates resumes against job descriptions, providing keyword matching, ATS insights, and skill-gap analysis.
