Professional Summary

Motivated Computer Science undergraduate at SVNIT with strong proficiency in C++, Data Structures & Algorithms, and full-stack web development. Experienced in building responsive web applications using React, Next.js, Node.js, Express, MongoDB, and PostgreSQL. Passionate about writing clean, efficient code, solving challenging problems, and continuously learning new technologies. Seeking a Software Engineering internship to apply technical skills, contribute to impactful projects, and grow as a developer.

Education

Sardar Vallabhbhai National Institute of Technology (SVNIT)	2024 – 2028
<i>Bachelor of Technology in Computer Science & Engineering</i>	<i>CGPA: 8.4/10</i>
Perfect Higher Secondary School	2024
<i>Higher Secondary Certificate (HSC)</i>	<i>Percentage: 92%</i>
Trinity School	2022
<i>Secondary School Certificate (SSC)</i>	<i>Percentage: 89%</i>
JEE Main 2024	
<i>All India Rank (AIR): 6907</i>	

Experience

Full-Stack Developer (Freelancing)	Jun 2026 – Present
<i>E-Commerce Platform</i>	<i>RPatel Wholesale</i>
- Engineered a comprehensive, enterprise-grade E-Commerce platform featuring complex product hierarchies (categories, brands, dynamic size/weight variants), a dynamic shopping cart, and secure Stripe-integrated checkout. - Developed a powerful internal admin dashboard with advanced data management capabilities, including real-time order tracking, comprehensive user management, broadcast messaging, and seamless bulk product imports via Excel. - Architected the full stack utilizing Next.js, React, TypeScript, and Tailwind CSS for a highly responsive frontend, coupled with a high-performance Python FastAPI backend, PostgreSQL via SQLAlchemy, and Firebase Authentication.	

Technical Projects

RoadMate - Location Based Roadside Assistance Platform | *NextJs, Tailwindcss, MongoDB, LeafletJs*

- Designed and built full Stack platform connecting drivers experiencing breakdown with the nearest available mechanic, solving a real time proximity-matching problem at the application layer using geospatial queries on MongoDB
- Integrated Leaflet.js for an interactive map interface with live location visualization
- Built a fully responsive UI with Next.js and TailwindCSS, achieving consistent UX across mobile and desktop.
- Implemented RESTful API routes in Next.js API handler with input validation and structured error responses, following production API design conventions

Technical Skills

Programming Languages: C, C++, Python
Web Technologies: React.js, HTML, CSS, Javascript, Next.js
Databases & Tools: MySQL, PostgreSQL, MongoDB, Git, GitHub
Specializations: Machine Learning, Full-Stack Development

Achievements & Certifications

2× Top 8 Finalist, CodeCraft - Competed in algorithmic programming, development, debugging, and problem-solving
Participated in multiple Hackathons - Hackout, Web Wonder
