Education

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat Aug 2024 – Aug 2028
Bachelor of Technology in Computer Science and Engineering **CGPA: 6.52/10**

Technical Skills

Languages: C, C++, Python, JavaScript, SQL

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, Docker, Prisma ORM, SQLAlchemy, Alembic, Pydantic, Postman

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks

Projects

Data Collection Platform

React.js — TypeScript — FastAPI — PostgreSQL — SQLAlchemy — Alembic GitHub

- Built REST APIs using FastAPI, SQLAlchemy and PostgreSQL for a government data collection platform.
- Implemented authentication, Role-Based Access Control (RBAC), audit logs and admin management modules.
- Designed dynamic template management and handled JSONB-based form submissions with Alembic migrations.
- Collaborated using Git/GitHub to debug issues and deliver scalable backend features.

Basho by Shivangi

Next.js — TypeScript — Node.js — MongoDB — Razorpay — Cloudinary GitHub — Live Demo

- Developed backend APIs for products, workshops, custom orders and admin functionalities.
- Integrated Razorpay payment gateway with secure payment verification and checkout flow.
- Implemented Cloudinary image uploads, RBAC and responsive UI improvements.
- Contributed to an e-commerce and workshop platform with product, event and order management.

VoteByte – Secure Online Voting System

React.js — Node.js — Express.js — PostgreSQL — Prisma ORM GitHub

- Developed a secure online voting platform with JWT authentication and Role-Based Access Control (RBAC).
- Built election, candidate, voter and complaint management modules using React, Express.js and PostgreSQL.
- Integrated Prisma ORM, bcrypt password hashing and secure database operations.
- Contributed to real-time election result management and overall application performance improvements.

Achievements

- Solved **500+** Data Structures and Algorithms problems on **LeetCode**.
- Finalist in **Web Wonders**, competing among **200+** participants.
