[LinkedIn](#) | [GitHub](#) | Design Portfolio : [@vaibhvpro](#) & [Drive \(Initial works\)](#)

Computer Science student interested in product development, UI/UX design, and AI-driven solutions. Enjoy building user-centered digital products from ideation and wireframing to implementation.

## EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Sardar Vallabhbhai National Institute of Technology (SVNIT)

2024 – 2028

## SKILLS

**Programming Languages:** Python, C/C++, SQL

**Web Technologies:** HTML, CSS, React, Next.js, Tailwind CSS

**Databases:** MySQL, Supabase

**Tools & Platforms:** Git, GitHub, Figma, Canva

## PROJECTS

### CareerAI

**Tech Stack:** React, Next.js, Supabase, Figma

- Designing and developing an AI-powered career guidance platform for students.
- Created assessment workflows, user journeys, and wireframes for career exploration.
- Planned AI-generated reports, personalized career insights, and roadmap features.

**Kalakosh – Deployed Link :** [kalakosh.onrender.com](https://kalakosh.onrender.com)

**Tech Stack:** HTML, CSS, JavaScript, Figma

- Led a team in building a platform promoting awareness of traditional Indian art forms.
- Created wireframes and designed the overall website structure and navigation flow.
- Developed key state, artform, and gallery showcase pages.
- Successfully deployed the project for a Web Development competition.

### VibeFit

**Tools:** Figma

- Designed a fitness and wellness application from a client-style project brief.
- Created user flows, wireframes, and high-fidelity mobile UI designs.
- Focused on usability, habit tracking, and user engagement.

## LEADERSHIP & ACTIVITIES

### MindBend Techno-Managerial Fest

- Managed and coordinated event operations as part of the organizing team.
- Contributed to event flow planning, ideation, and participant experience.

### Team Lead – Kalakosh

- Coordinated project planning, task allocation, and team execution.
- Guided development through wireframing, design discussions, and collaboration.

## DESIGN PORTFOLIO

- Created UI/UX concepts, wireframes, branding assets, and digital designs using Figma.
- Portfolio includes VibeFit, Little Joys Café, and other design explorations.
