Professional Summary

Computer Science undergraduate with a strong foundation in software engineering, data science, and machine learning. Proficient in designing efficient, scalable, and user-focused applications while applying analytical thinking to solve complex problems. Skilled in programming, full-stack development, and data-driven decision-making, with a continuous passion for learning emerging technologies and improving technical expertise. Eager to contribute innovative solutions in collaborative, fast-paced environments.

Education

Sardar Vallabhbhai National Institute of Technology <i>Bachelor of Technology in Computer Science & Engineering</i>	2024 – 2028 CGPA: 7.53/10
Vidhyadhish Secondary School <i>Higher Secondary Certificate (HSC)</i>	2024 Percentage: 76.3%
Shree Vidhyavihar Secondary School <i>Secondary School Certificate (SSC)</i>	2022 Percentage: 94.83%

Experience

Full-Stack Developer (Freelancing) <i>Corporate Website</i>	Dec 2025 - Jan 2026 AXAR Enterprise
- Developed a high-performance, responsive corporate website for an ISO certified manufacturer using Next.js, React, Tailwind CSS, and Framer Motion. - Implemented robust technical SEO strategies, including structured JSON-LD schemas, dynamic sitemaps, and optimized metadata, successfully helping the site rank in the top 5 for targeted search queries. - Integrated Google Analytics and Vercel Analytics for user tracking, ensuring high Core Web Vitals and seamless cross-device performance.	
Full-Stack Developer (Freelancing) <i>E-Commerce Platform</i>	Jun 2026 – Present RPatel Wholesale
- Engineered a comprehensive, enterprise-grade E-Commerce platform featuring complex product hierarchies (categories, brands, dynamic size/weight variants), a dynamic shopping cart, and secure Stripe-integrated checkout. - Developed a powerful internal admin dashboard with advanced data management capabilities, including real-time order tracking, comprehensive user management, broadcast messaging, and seamless bulk product imports via Excel. - Architected the full stack utilizing Next.js, React, TypeScript, and Tailwind CSS for a highly responsive frontend, coupled with a high-performance Python FastAPI backend, PostgreSQL via SQLAlchemy, and Firebase Authentication.	

Technical Projects

Interactive Canvas-Based Text Editor C++, SFML, CMake, macOS Native APIs
- Developed a high-performance, macOS-available interactive text editor featuring an infinite whiteboard “Canvas Mode” for visual workspace organization - Engineered node-based file management with drag-and-drop grouping, alignment guides, minimap navigation, and mind-map style visual connections - Integrated rich media capabilities leveraging Cocoa and AVFoundation frameworks for seamless in-editor image, audio, and video previews - Designed a custom gamified typing experience incorporating particle systems, physics-based character animations, and real-time audio synthesis

Technical Skills

Programming Languages: C, C++, Python, C#, Java
Web Technologies: React.js, HTML, CSS, Javascript, Next.js
Databases & Tools: MySQL, PostgreSQL, MongoDB, Git, GitHub
Specializations: Machine Learning, Full-Stack Development

Achievements & Certifications

2× Top 8 Finalist, CodeCraft - Competed in algorithmic programming, development, debugging, and problem-solving
Technical Executive, Mindbend - Organized the Line Follower robotics competition and coordinated event operations
Participated in multiple Hackathons - Hackout, Web Wonder
