Khushboo_Chaudhary

EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

Bachelor of Technology in Computer Science and Engineering

Expected Graduation: May 2028 | CGPA: 7.64/10

EXPERIENCE

IIT Bombay

Software Development Project | June 2026 – Present

- Developing an AI-assisted web platform for Bayesian Optimization using React, FastAPI, MongoDB, and Scikit-learn.
- Implemented experiment management, interactive visualizations, uncertainty analysis, and automated PDF reporting.
- Built optimization workflows using Gaussian Process Regression and Expected Improvement acquisition functions.

PROJECTS

Basho – Full Stack E-Commerce Platform

GitHub: github.com/Khushboo-3107djjk/Basho-by-Shivangi

Live Demo: <https://bashoproject.vercel.app>

Tech Stack: Next.js • React • TypeScript • MongoDB • Tailwind CSS • Razorpay

- Developed a full-stack platform supporting product catalog, custom orders, workshops, events, galleries, and an administrative dashboard.
- Integrated secure authentication, payment processing, and responsive user interfaces.
- Designed scalable backend APIs and optimized database operations for efficient order and inventory management.

AI-Based Fake Social Media Account Detection (Ecleon Hackathon Finalist)

Tech Stack: Python • Scikit-learn • Flask • MongoDB • React

- Developed an AI-powered system to identify fake social media accounts using machine learning–based behavioral analysis.
- Designed a dashboard to classify suspicious accounts using profile attributes and activity-based features.
- Built an end-to-end application integrating data preprocessing, model prediction, and result visualization.
- Selected as a Finalist in Ecleon Hackathon 2026 among competing teams.

HR & Payroll Management System (Odoo Innovation Challenge – Final Round)

GitHub: https://github.com/Khushboo-3107djjk/Resources_careful_use

Tech Stack: Odoo • Python • PostgreSQL

- Developed an ERP-based Human Resource Management System using the Odoo framework.
- Implemented employee management, attendance tracking, leave request processing, payroll generation, and salary management modules.
- Designed workflows for automated payroll processing and employee record management.
- Advanced to the Final Round of the Odoo Innovation Challenge.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: FastAPI, Flask, Node.js, Express.js

Machine Learning: Scikit-learn, TensorFlow, Keras, Gaussian Process Regression, Bayesian Optimization, XGBoost

Databases: MongoDB, MySQL, PostgreSQL

Developer Tools: Git, GitHub, Docker, Linux, VS Code, Postman

ACHIEVEMENTS

- Submitted a Google Summer of Code (GSoC) proposal on Retrieval-Augmented Generation (RAG).
- Finalist, Ecleon Hackathon 2026.
- Finalist, CodeCrafts Competition.
- Member, Google Developer Groups (GDGC).
