EDUCATION

National Institute of Technology Surat

Bachelor of Technology in Computer Science and Engineering CGPA: 7.22/10

Surat, Gujarat

Expected Aug. 2028

Shriji Baba Saraswati Vidya Mandir

Class XII (CBSE): 92.3%

Uttar Pradesh

2023

Shriji Baba Saraswati Vidya Mandir

Class X (CBSE): 95.8%

Uttar Pradesh

2021

PROJECTS

Joy-Juncture | *React.js, Node.js, Express.js, MongoDB* | [Live Demo](#) | [GitHub](#)

- Developed a full-stack gaming platform supporting both free and premium games.
- Implemented secure user authentication and role-based authorization for users and administrators.
- Built an admin dashboard to manage games, users, and website content.
- Integrated MongoDB for efficient storage and retrieval of user and game data through RESTful APIs.
- Designed a responsive user interface using React.js, ensuring a seamless experience across desktop and mobile devices.
- Deployed the application on Vercel and integrated the frontend with a Node.js/Express backend.

Peer-to-Peer Skill Exchange Platform | *React.js, Node.js, Express.js, SQL* | [GitHub](#)

- Developed a full-stack platform where users can teach skills they possess and learn skills from others through peer-to-peer collaboration.
- Implemented authentication, user profiles, and personalized skill listings for offered and requested skills.
- Designed a skill-matching system that connects users based on compatible learning and teaching interests.
- Implemented request management, session scheduling, and review mechanisms to facilitate seamless peer-to-peer skill exchange.
- Integrated a review and rating system to build trust and improve the quality of skill exchange interactions.

Smart Elevator Scheduling System (Ongoing)(Expected Completion: Dec 2026) | *ESP32, IoT, Reinforcement Learning*

- Designing an intelligent elevator scheduling system for multi-floor buildings.
- Planning ESP32-based hardware integration for real-time elevator control.
- Researching reinforcement learning techniques to optimize elevator scheduling and reduce passenger waiting time.
- Developing a scalable system architecture combining embedded hardware with AI-based decision making.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Databases: MongoDB, SQL

Developer Tools: Git, GitHub, VS Code

Core Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks, REST APIs

ACHIEVEMENTS

- Winner, Smart India Hackathon (SIH) Internal College Round.
- Solved 150+ Data Structures and Algorithms problems on LeetCode.
- **LeetCode Profile:** leetcode.com/u/Anuj2006-ux
- Practicing competitive programming through regular participation in Codeforces contests.
- Secured 99.6 percentile (AIR 6466) in JEE Main 2024.
