EDUCATION

Sardar Vallabhbhai National Institute of Technology, Surat (SVNIT)

Expected 2028

Bachelor of Technology – Computer Science and Engineering

CGPA: 7.10 (Till 4th Semester)

Maharashtra State Board

2024

Higher Secondary Certificate (Class XII)

Percentage: 78.00%

Central Board of Secondary Education (CBSE)

2022

Secondary School Examination (Class X)

Percentage: 89.60%

PROJECTS

LocalBite AI | *React.js, FastAPI, PostgreSQL, Supabase, Tailwind CSS, WebSockets*

- Engineered a full-stack food delivery platform featuring dedicated dashboards and an AI-powered address parsing system (HuggingFace NLP) for improved location accuracy in Tier-2/3 regions
- Integrated Supabase PostgreSQL for data persistence and implemented WebSocket-based real-time synchronization for live order status updates and dynamic rider assignments
- Designed an interactive delivery interface using React Leaflet to simulate live GPS rider movement and enable end-to-end order tracking across all connected clients

AI-Powered Mock Interview Platform | *React.js, TypeScript, FastAPI, PostgreSQL, Gemini API*

- Built a full-stack platform using React.js and FastAPI (backed by PostgreSQL/SQLAlchemy) that personalizes mock interviews based on uploaded resumes and specific role requirements
- Integrated the Google Gemini API to generate tailored questions and provide AI-driven feedback, alongside voice-based interactive support using browser speech recognition and synthesis
- Designed an interactive analytics dashboard with charts to visualize users' interview history, track performance trends, and measure skill-wise improvements over time

Expense Tracker Mobile App | *React Native, Expo, SQLite, JavaScript*

- Developed a cross-platform mobile expense tracker using React Native and Expo, featuring secure authentication, transaction search, and customizable categories
- Implemented a SQLite-based local database to enable full offline CRUD operations for managing expense records, recurring payments, and dynamic budget tracking
- Built an interactive financial dashboard with visual charts, calendar-based history, and smooth UI animations utilizing React Native Reanimated and Context API for state management

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python, SQL

Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS, TypeScript, Vite

Backend: FastAPI, Node.js, Express.js

Databases: PostgreSQL, MySQL, SQLite, Supabase

Developer Tools: Git, GitHub, VS Code, Postman, Expo, Firebase, Render, Vercel, Unity

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Information Security

ADDITIONAL INFORMATION

Achievements: Solved 150+ Data Structures & Algorithms problems on LeetCode; Finalist (GWOC 2026)
