EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat Aug 2024 – Aug 2028
Bachelor of Technology in Computer Science and Engineering
CGPA: 8.54/10.0

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, FastAPI
Databases: PostgreSQL, MongoDB, SQL
AI & Computer Vision: Gemini, OpenCV, Face Recognition
Tools & Platforms: Git, GitHub, SQLAlchemy, Prisma, Vercel
Core Concepts: Data Structures and Algorithms, OOP, DBMS, Computer Networks

PROJECTS

CaseCraftAI – AI-Powered Police Investigation Assistant

Next.js, FastAPI, PostgreSQL, SQLAlchemy, Google Gemini

- Created an AI-powered police case management platform for complaint registration, case tracking, officer assignment, and investigation workflows.
- Built Role-Based Access Control (RBAC) for administrators and police officers with secure dashboards and permission-based access.
- Implemented AI-assisted legal section recommendation by mapping complaint descriptions to relevant BNS, BNSS, and BSA provisions.
- Automated generation of FIRs, notices, remand applications, seizure memos, and other investigation documents with complaint data pre-filled.

Basho-by-Shivangi

[Live Demo: bashoproject.vercel.app](https://bashoproject.vercel.app)

Next.js, TypeScript, Node.js, MongoDB, Razorpay

- Developed the backend architecture supporting products, workshops, events, orders, and custom order workflows.
- Enforced Role-Based Access Control (RBAC) and administrative dashboards for managing users, products, orders, and platform content.
- Integrated Razorpay payment gateway with secure payment verification and order management.

VoteByte

React.js, Node.js, PostgreSQL, OpenCV

- Integrated a biometric voter authentication system using facial recognition for voter identity verification.
- Executed face detection, feature extraction, and face-matching pipelines using OpenCV.
- Designed safeguards against duplicate and unauthorized voting through automated identity validation.

ACHIEVEMENTS

- Solved **800+** DSA problems on LeetCode and other competitive programming platforms.
- Ranked among the **Top 30** participants out of 150+ competitors in the ACM SVNIT Summer Challenge.
- Reached the **Final Round (Top 3 Teams)** in Web Wonders, competing against more than 200 participants.
