

SAHARSH CHOUDHARY

saharshimp@gmail.com | linkedin.com/in/saharsh-choudhary | +91-7738346384

EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT)

Surat, India

Bachelor of Technology in Computer Science and Engineering

Aug 2024 – May 2028

- **Relevant AI Coursework:** Artificial Intelligence, Natural Language Processing (Self-Study), Probability & Statistics, Linear Algebra, Data Structures & Algorithms.

Nirmala Memorial Foundation College

Mumbai, India

Senior Secondary Education (HSC)

2022 – 2024

Thakur Public School

Mumbai, India

Primary & Secondary Education

2012 – 2022

TECHNICAL SKILLS

Languages: C, C++, Python (NumPy, Pandas), SQL, JavaScript, HTML, CSS

AI/ML Knowledge: Natural Language Processing (NLP), LLM Integration (OpenAI API), Prompt Engineering, Basic Scikit-learn

Developer Tools: VS Code, Git, GitHub, Google Cloud Platform (GCP) APIs

Achievements: CodeChef Rating 1000

EXPERIENCE

Software Intern

Nov 2024 – Dec 2024

TrackWizz

Mumbai, Maharashtra

- Engineered a data-verification tool using **Python** and **Google Cloud APIs**.
- Developed a custom matching algorithm with confidence scoring.
- Reduced manual data auditing by 40% via automation.

PROJECTS

HSI–MSI Image Fusion for Remote Sensing | Python, NumPy, Signal Processing

ISRO Collaboration

- Worked under Dr. Mukesh Zaveri and Dr. Anugrah Jain on hyperspectral (HSI) and multispectral (MSI) image fusion.
- Implemented frequency-domain transformation of MSI data using Fast Fourier Transform (FFT) for spectral alignment.
- Contributed to fusion pipeline integrating spatial and spectral features for improved reconstruction.
- Handled preprocessing of high-dimensional remote sensing data for efficient computation.

AI-Driven Medical Triage & Appointment System | Python, GenAI, SQL

Jan 2025

- Used Generative AI to process unstructured patient symptoms and generate triage suggestions.
- Built role-based dashboard for managing AI outputs and scheduling.
- Ensured 100% scheduling consistency using backend logic.

Responsive Restaurant Ordering System | JavaScript, LocalStorage, HTML/CSS

Oct 2024

- Built responsive UI with real-time cart updates.
- Used LocalStorage for persistent client-side state.
