EDUCATION

2024 - Present	BTECH(CSE) Sardar Vallabhbhai National Institute Of Technology, Surat (CGPA: 8.29)	
2022 - 2024	Senior Secondary Board of Intermediate Education Andhra Pradesh	(97.7)
2021 - 2022	Secondary Board of Secondary Education, Telangana	(CGPA: 9.8)

PROJECTS

- **Genesis — Price Comparison & Alert System** *MERN, Puppeteer, JWT*
 - Built a headless scraping pipeline with **Puppeteer (stealth + adblocker plugins)** to extract live prices from Amazon, Flipkart, Croma, and Reliance using site-specific DOM selectors
 - Designed a **node-schedule cron job** (every 30 min) that refreshes product prices and independently evaluates user-defined target-price alerts, storing a rolling 90-entry price history per product
 - Implemented deduplicated email alerts (tracking `lastNotifiedPrice` per subscription) and JWT + bcrypt auth with token-based email verification via Nodemailer
 - GitHub: [Repository](#)
- **Railway Platform Surveillance System** *Python, YOLOv8, OpenCV, Pandas*
 - Built an AI-based surveillance analysis system using **YOLOv8** with tiled detection to accurately detect and count people in crowded railway platform images and videos
 - Implemented hybrid crowd estimation by blending YOLOv8 detections with head density estimation using adaptive thresholding, significantly improving accuracy in dense, occluded crowd scenes
 - Generated structured analytical outputs including crowd density classification, time-based crowd trend charts, automated alerts, and an HTML dashboard for decision-making
 - GitHub: [Repository](#)
- **Task & Assignment Manager** *Node.js, Express, MySQL*
 - Designed a normalized relational schema (Users, Subjects, Tasks, PriorityLevels, RecurrencePatterns) with foreign-key constraints enforced at the DB layer
 - Used **stored procedures** (`sp_add_new_task`, `sp_safe_delete_task`) to encapsulate multi-step writes and validation, and a **trigger** to auto-log task-completion history
 - Implemented bcrypt-hashed authentication and parameterized queries throughout to prevent SQL injection
 - GitHub: [Repository](#)

ACHIEVEMENTS & CERTIFICATIONS

- Codeforces – Max Rating 1281 ([View Profile](#))
- LeetCode – 350 Problems Solved ([View Profile](#))

POSITION OF RESPONSIBILITY

- Executive, ACM NIT Surat Sept. 2025 – Present
- Member - Nexus SVNIT Aug. 2024 – Present
- ACM Summer Challenge '25 – Participant, ACM NIT Surat ([Certificate](#))

TECHNICAL SKILLS

- Programming: C, C++, Python, JavaScript
- Databases: MySQL, MongoDB
- Tools: Git, GitHub, Docker
- Web Skills: HTML, CSS, JavaScript, React, Node/Express JS
