Education

National Institute of Technology, Surat — B.Tech in Computer Science and Engineering

Expected May 2028

- CGPA: 9.45/10
- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Computer Networks, Information Security, Operating System, Computer Organization
- **JEE Scores:** JEE Main — 99.68 percentile; JEE Advanced — AIR 7204

Technical Skills

Languages: C, C++, Python, JavaScript, SQL

Frameworks / Libraries: Node.js, Express.js, React.js, Next.js, EJS, Mongoose, NumPy, Pandas, Matplotlib, Scikit-Learn

Web & Backend: REST APIs, BullMQ, Authentication & Authorization (JWT, Passport.js), WebSockets, API Design

Databases & Cloud: SQL, MongoDB, Redis, Firebase, Vercel, Render

Tools: Git, GitHub, Docker, VS Code

Experience

Software Developer, Career Development Cell (CDC), SVNIT

2025 – Present

<https://cdc-exam.svnit.ac.in> | cdc-exam@svnit.ac.in

- Designed and developed an institute-wide online assessment platform deployed on the official SVNIT domain
- Integrated Safe Exam Browser (SEB) with cryptographic config validation to prevent unauthorized access and environment bypass
- Built a real-time exam system with scheduling, automatic activation, and live updates using Node-schedule and Socket.io
- Developed a comprehensive admin dashboard for test creation, branch-wise assessments, leaderboards, announcements, bulk XLSX handling, and detailed test performance analysis.
- Implemented OTP-based authentication and developed a student analytics interface providing detailed score breakdowns, performance insights, and test history

Projects

GWOC – Joy Juncture (Gamified E-Commerce & Events Platform)

GitHub Repo | Live Demo

- Built a full-stack platform integrating e-commerce, gaming, and event management using Next.js and TypeScript
- Implemented an end-to-end e-commerce system with product catalog, cart, Razorpay checkout, order tracking, and invoices
- Designed a gamification engine with XP, Joy Points, tier-based multipliers, daily challenges, and leaderboards across 14+ games
- Developed a custom Experiences module enabling event enquiries, admin review, dynamic pricing, payment, and confirmation workflows
- Integrated Firebase Auth and optimized performance and security using Redis-based caching and API rate limiting

Online Coding Platform

GitHub Repo

- Built an online coding platform with secure code execution, automated judging, submission history, and problem management using Node.js, Express.js, MongoDB, Redis, and BullMQ

- Architected an asynchronous judging pipeline with dedicated Run, Submit, and Test-case Generation queues and worker-based execution
- Implemented Docker-based execution sandbox with process isolation, CPU/memory limits, disabled networking, and automated verdict generation
- Developed an admin portal with Monaco Editor integration, template-based compilation, official solutions, and automated test-case generation
- Designed a modular judge framework with configurable output comparators and extensible worker architecture

Problem Solving & Competitive Programming

- Finalist in ACM Summer & Mirror Challenge, SVNIT, 2026
- Solved 600+ Data Structure and Algorithm problems on LeetCode, strengthening problem-solving and algorithmic design skills
- Active on Codeforces with experience participating in competitive programming contests

Achievements and Certifications

Web Wonders Hackathon, SVNIT July 2025

- Secured **1st place** in the Transportation theme for building the TransitFlow smart transportation platform (*Certificate*)

Google Winter of Code (GWOC) – Joy Juncture Track Dec 2025 - Jan 2026

- Secured **1st place** in the Joy Juncture track for building a gamified e-commerce and events platform (*Certificate*)

Official CDC Website Development, SVNIT 2025

- Developed the official Career Development Cell (CDC) website for SVNIT to support institute-wide assessments, mock examinations, and student management
(Certificate)

Positions of Responsibility

Executive, Mindbend Techfest Coding Contests, NIT Surat 2024

- Supported the execution of ICPC-style and multi-round coding contests
- Mentored students in Data Structures and Algorithms as part of an 8-week DSA mentorship program organized by Nexus Community, SVNIT
