

Chauhan Rudra Dharmendrasinh

Frontend Developer | Prompt Engineering

Surat, India | 9726746046 | chauhanrudra557@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Tech student specializing in Frontend Development and Prompt Engineering, with hands-on experience building modern, responsive web applications using React, Node.js, and MongoDB. Skilled at translating user needs into clean, accessible interfaces and comfortable working with AI/generative tools to accelerate development. Proven collaborator with a track record of delivering full-stack solutions under deadline, including a first-place finish in the Google Winter of Code 2026 project competition. Eager to bring strong problem-solving skills, adaptability, and a user-first design mindset to a healthcare technology team building software that improves patient and provider experiences.

EDUCATION

B.Tech in Engineering

Expected Graduation: 2028

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

Current Year: 3rd Year | CGPA: 7.39

TECHNICAL SKILLS

- Competitive Programming: Pupil @ Codeforces (Rating: 1311)
- Programming Languages: HTML, CSS, JavaScript, Python, SQL
- Web Development: React, Node.js, MongoDB
- AI & Prompt Engineering: Prompt Engineering, ChatGPT, Claude, Generative AI Tools
- Tools & Platforms: GitHub, VS Code

PROJECTS

Google Winter of Code (GWOC) 2026 — Basho Project

- Built a full-stack web application using React, Node.js, MongoDB, and CSS.
- Collaborated with a development team to design and implement the project's problem statement.
- Implemented the frontend UI and integrated it with backend services.
- Successfully deployed the project online; recognized as a competition winner.

Live Project: gwoc-basho-emop.vercel.app

ACHIEVEMENTS

- Winner — Google Winter of Code 2026 Project Competition

CERTIFICATIONS

- Google Winter of Code Participation Certificate
- AI Tools and ChatGPT Certification
- Generative AI Studio Completion Certificate
