Education

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat	2024 – Present
Bachelor of Technology in Computer Science and Engineering	<i>CGPA: 8.25</i>

Skills

Languages & Core: C, C++, Python, Data Structures & Algorithms (DSA), DBMS
Machine Learning: Deep Learning, Scikit-Learn, NumPy, Pandas, Keras, PyTorch, Pipelines
Databases: SQL, MySQL, SQLite

Projects

Student Placement Prediction System [Live](#)

- Built an end-to-end ML training pipeline evaluating **7 classifiers** (Gradient Boosting, Random Forest, SVC, etc.) across polynomial and standard scaling feature transformation.
- Engineered automated preprocessing with **median imputation**, **feature scaling**, and performance benchmarking tracked via **F1-score**, **ROC-AUC**, and **accuracy metrics**.
- Selected and serialized the top-performing **Gradient Boosting pipeline** into an interactive **Streamlit web application** with persistent **SQLite storage** and an analytics dashboard.

Basho – Handcrafted Pottery Studio Platform [Live](#)

- Developed a **full-stack web application** for a pottery studio, enabling product browsing, custom order requests, and customer engagement.
- Designed **responsive user interfaces** and implemented **backend functionality** for managing products and customer interactions.
- Built **structured workflows** and data handling systems to provide a seamless **digital storefront experience**.

Experience

Executive Member – ACM Student Chapter **2025**

- Organized and managed technical events, hackathons, and programming contests aimed at fostering developer culture and peer learning across campus.
- Coordinated cross-functional teams for event logistics, publicity, problem curation, and technical workshop execution.

Achievements

- Winner**, Google Winter of Code 2026 [Certificate](#)
- Problem Solving**, Solved 200+ Data Structures and Algorithms problems on LeetCode.
