- **Designing Skills:** Canva

PROJECTS

- **Doctor Appointment Booking System** — *MERN Stack, JWT, Tailwind CSS* [GitHub](#)
 - Developed a full-stack doctor appointment booking platform featuring dedicated Patient, Doctor, and Admin portals for streamlined healthcare operations.
 - Implemented secure JWT user authentication, role-based access control (RBAC), and robust appointment scheduling workflows.
 - Designed and optimized scalable RESTful APIs with an intuitive, fully responsive dashboard interface.
- **Expense Tracker** — *React.js, Node.js, Express.js, MongoDB* [GitHub](#)
 - Engineered a full-stack financial monitoring application to efficiently record, manage, and audit user income and daily expenditures.
 - Built complete CRUD functionalities, secure user authentication systems, and automated dynamic transaction categorization.
 - Designed an interactive analytics dashboard with real-time financial tracking visuals using a modern React frontend.
- **Personal Portfolio Website** — *React.js, JavaScript, HTML, CSS* [GitHub](#)
 - Designed and deployed a responsive personal portfolio website to cleanly showcase development projects, core technical skills, and achievements.
 - Created modular, reusable React components ensuring a highly flexible architecture and a mobile-friendly layout.
 - Integrated sleek scroll navigation effects, a curated project grid showcase, and an optimized operational contact form.
