B.Tech
Male

Examination	University	Institute	Year	CPI/%
Graduation	SVNIT	SVNIT, Surat	2024-28	8.03
HSC	GSEB	Ashadeep Vidyalaya -4, Surat	2023-2024	91.69
SSC	GSEB	Ashadeep Vidyalaya -4, Surat	2022	96.50

PROJECTS

- **TechHireHub – Career & Company Insights Platform (Focus: Web Development)**
 - Developed an intelligent web platform that helps students explore detailed company information including hiring positions, average salary packages, and historical recruitment data.
 - Implemented a structured database system to analyze and present previous year placement trends, enabling users to make informed career decisions.
 - Integrated curated video resources and preparation references to guide candidates through company-specific interview processes.
 - Built a query and interaction system that facilitates two-way communication between users and the platform, allowing students to ask questions and receive relevant guidance.
- **Vehicle Rental System (Focus: C++ & Object-Oriented Programming)**
 - Architected a dual-interface rental platform allowing users to both book vehicles for personal use and list their own vehicles for rent.
 - Applied Object-Oriented Programming (OOP) principles such as Inheritance and Polymorphism to efficiently manage diverse vehicle classes (Cars, Bikes, SUVs).
 - Designed a robust booking logic that handles availability tracking and fare calculation, demonstrating strong grasp of class encapsulation.
- **Vehicle Rental Management System (Focus: SQL & Database Management)**
 - Designed and implemented a relational database system to efficiently manage vehicle inventory, customer details, and rental transactions.
 - Developed structured SQL tables and queries to track vehicle availability, booking records, and rental history for smooth system operations.
 - Applied integrity constraints and validation rules to ensure accurate data entry, such as preventing double booking and maintaining valid rental periods.
 - Optimized SQL queries to quickly retrieve information about available vehicles, rental status, and customer bookings, improving overall system efficiency.

TECHNICAL SKILLS

- C , C++ , Python
- Html , css , javascript , react
- Dbms , oops , dsa , problem solving

- Other skills: Communication, Team work, Adaptability ,project manganment

EXPERIENCE

- Contributed to software and web-based academic projects with a focus on functionality and innovation.
- Designed and tested frontend features using React and JavaScript for group-based coursework.
- Enhanced collaboration and productivity through peer code reviews and shared debugging session

AREA OF INTEREST

- Problem Solving
- Data Engineering

HOBBY

- Coding
- Reading
