SUMMARY

Third-year Computer Science undergraduate at SVNIT with strong foundations in Data Structures, Algorithms, and system-level programming. Actively preparing for software engineering roles with hands-on projects and competitive programming experience.

EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT)

B.Tech in Computer Science and Engineering

2024 – 2028

TECHNICAL SKILLS

Programming Languages: C++, Python

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Databases: MySQL

Tools: Git, Linux, Docker (basic)

PROJECTS

Market Data Analysis & Processing System | *Python, ML, REST, MySQL*

- Analyzed OHLCV financial data to identify short-term market microstructure patterns.
- Built baseline predictive models and RESTful APIs for data storage and querying.
- Evaluated model performance using RMSE and accuracy metrics.

College Resource Sharing System | *Web Development*

- Developed a centralized platform for college students to seamlessly share and access academic resources.
[\[GitHub Repository\]](#)
- Implemented user authentication and structured database schemas for efficient resource categorization and retrieval.
- The system allows user to rent and upload authenticated items for sharing with their peers.

ACHIEVEMENTS

Competitive Programming: LeetCode (500+ questions solved) [\[Profile\]](#)

Codeforces (Pupil, Max Rating: 1313) [\[Profile\]](#)

CanSat Competition Winner: Secured **1st Place** among internal university teams.

ACM Summer Challenge: Secured **2nd Rank** in August 2025.

CodeChef: **3-Star** rated.
