Education

B.Tech in Computer Science and Engineering <i>Sardar Vallabhbhai National Institute of Technology (NIT Surat)</i>	2024 – Present CGPA: 8.38
Senior Secondary (Class XII) <i>Telangana State Board of Intermediate Education</i>	2022 – 2024 Percentage: 98.8%

Technical Skills

Languages	C, C++, Python, JavaScript
Web Development	HTML5, CSS3, React.js, Node.js, Express.js
Databases	SQL, MongoDB
Tools	Git, GitHub, Docker, Postman, Linux(Basic)

Projects

Railway Platform Surveillance System <i>Python, YOLOv8, OpenCV, Pandas, Matplotlib</i>	[GitHub]
- Built an AI-based surveillance analysis system using YOLOv8 (large model) with tiled detection to accurately detect and count people in crowded railway platform images and videos. - Implemented hybrid crowd estimation by blending YOLOv8 detections with head density estimation using adaptive thresholding, significantly improving accuracy in dense,occluded crowd scenes. - Generated structured analytical outputs including crowd density classification(Low/Medium/High/Critical), time-based crowd trend charts, automated alerts,and an HTML dashboard for railway authority decision-making.	

Product Price Comparison & Alert System <i>MongoDB, Express.js, React.js, Node.js, Nodemailer</i>	[GitHub]
- Built a MERN stack app that scrapes and aggregates product prices from multiple e-commerce platforms into a unified dashboard, with backend scheduling via cron jobs and RESTful APIs. - Implemented a target-price alert feature using Nodemailer to send automated email notifications when a product drops to the user’s desired price. - Managed user authentication and data persistence with MongoDB, ensuring secure and reliable session handling.	

Task Assessment Manager <i>HTML, CSS, JavaScript, Node.js, Express.js, MongoDB</i>	[GitHub]
- Developed a full-stack task management web app with create, update, and delete functionality backed by Node.js/Express.js REST APIs and MongoDB for persistent cross-session storage. - Designed a clean, intuitive UI enabling users to track tasks and assignment deadlines efficiently across sessions. - Structured the backend with modular route handling and middleware, keeping the codebase maintainable and scalable.	

Achievements & Certifications

- Codeforces:** Achieved a max rating of **1005**; actively participate in competitive programming rounds. [\[Profile\]](#)
- LeetCode:** Solved **100+** problems with a contest rating of **1438**. [\[Profile\]](#)
- ACM Summer Challenge 2025:** Participation certificate, ACM NIT Surat Chapter. [\[Certificate\]](#)

Positions of Responsibility

Executive, ACM NIT Surat Chapter Organize coding contests, tech talks, and workshops for the student community at NIT Surat.	<i>Sept 2025 – Present</i>
Member, Nexus SVNIT Part of the technical club, involved in collaborative projects and peer learning sessions.	<i>Aug 2024 – Present</i>
