

DEVANSHI BHANKHODIA

☎ +91 9016836217 ✉ bhankhodiadevanshi@gmail.com [in](#) LinkedIn [GitHub](#) 📍 Morbi, Gujarat

Education

Sardar Vallabhbhai National Institute of Technology

July 2024 – Present

Bachelor of Technology in Mathematics and Computing

CGPA: 8.05/10

Skill Summary

Languages: C, C++, Python, SQL (MySQL, Oracle)

Technologies: NumPy, Pandas, Matplotlib, Git, GitHub, VS Code

Concepts: Data Structures, OOPs, DBMS, Linear Algebra, Probability, Discrete Mathematics

Projects

Handwritten Digit Recognition using Neural Network

Apr 2026

- Designed and implemented a two-layer feedforward neural network from scratch for handwritten digit classification on the MNIST dataset.
- Developed core learning components including forward propagation, backpropagation, ReLU activation, Softmax, and gradient descent without external ML frameworks.
- Performed data preprocessing, normalization, one-hot encoding, train-validation splitting, and custom image inference for real-world handwritten digit prediction.
- Achieved **84% validation accuracy** after training the model for 500 iterations, demonstrating effective handwritten digit recognition.
- **Tech Stack:** Python, NumPy, Pandas, Matplotlib, Pillow (PIL)

ClassroomX | *Virtual Classroom Management System*

Nov 2025

- Developed a full-stack web application to manage virtual classrooms with role-based access for teachers and students.
- Implemented features such as class creation, assignment management, submission tracking, and grading workflows.
- Designed backend using Flask and SQLAlchemy following modular OOP principles for scalability.
- Built responsive frontend using HTML, CSS, and Jinja2 with secure authentication and session handling.
- **Tech Stack:** Flask, Python, SQLAlchemy, SQLite, HTML, CSS, Jinja2, Pytest

Extra-Curricular Activities

Mindbend, NIT Surat

Surat, India

Social Media Co-Head

Dec 2025 – Present

- Led social media strategy and content execution, managing a team to drive event visibility and engagement.
- Boosted reach through targeted campaigns, reels, and trend-based content on Instagram.
- Collaborated with design and event teams for consistent branding and promotions.

Relevant Coursework

- Data Structures
- Database Management Systems
- Algorithm Analysis
- Computer Networks
- Object-Oriented Programming
