PROFILE

Motivated B.Tech student with Analytical and Programming Skills, Seeking Internship opportunities to apply Quantitative Problem-solving and Computational thinking to real-world challenges. Passionate about Quantitative roles, algorithmic problem solving, and building efficient data-driven systems.

ACCOMPLISHMENTS

- Cleared **JEE Main-2024** with **99.29 PR**.
- Cleared JEE Advanced-2024 & JEE Advanced-2025.
- Solved **200+** problems on Leetcode.
- Scored **100/100 in Mathematics** in Gujarat Higher Secondary Board Examination(GSEB-HSC).

EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat	2024 - Present
B.Tech in Mathematics and Computing (MnC)	
CGPA : 8.06	
P P Savani Vidhyabhavan	2022 - 2024
Higher Secondary Certificate (HSC)	
Percentage : 89 %	

AREAS OF EXPERTISE

- **Languages:** Python; C/C++; SQL
- **Developer and Analytical Tools:** VS Code; Github;Basic Python Libraries
- **Mathematics:** Linear Algebra; Probability and Statistics; Calculus
- **Finance:** Futures & Options; Fixed Income Securities; Basic Risk Management

PROJECTS

Joy Juncture

- Developed a dashboard for managing events and functions.
- Enabled real-time booking of venues based on crowd density.
- Created an admin panel to manage venues and cancel events before deadlines.
- Designed a reward-based review system integrated with mini-games.

Volatility-Adaptive Intraday Trading Engine

- Built a modular algorithmic trading framework integrating broker API connectivity(Angle one), market data pipelines, and systematic strategy execution.
- Developed a back-testing engine with slippage, brokerage modeling, drawdown tracking, and performance evaluation using Sharpe ratio and risk metrics.
- Implemented technical feature engineering (EMA, RSI, volatility) with regime-based signal generation and volatility-scaled position sizing.
- Designed risk-management components including stop-loss rules, capital allocation logic, and trade simulation for intraday strategies.
