PROFESSIONAL SUMMARY

Motivated B.Tech student seeking internship opportunities to apply strong analytical and programming skills. Passionate about machine learning, problem solving, and building efficient systems while continuously learning modern technologies.

EDUCATIONS

Sardar Vallabhbhai National Institute of Technology (SVNIT) | Surat, Gujarat Aug 2024 - May 2028
B.Tech in Mathematics and Computing CGPA : 9.07/10

- Ranked Top 5 in Mathematics and Computing
- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Linear Algebra, Probability & Statistics, Discrete Mathematics, Real Analysis

Gayatri vidyalaya | Surat, Gujarat 2024
Class XII CGPA : 93.8
12th science, 93.8%

Nilkanth kanya vidyalaya | Surat, Gujarat 2021 - 2022
Class X CGPA : 96
10th Board, 96%

SKILLS

Databases :	MySQL
Frameworks & Libraries :	Pandas, Numpy, Matplotlib, Sympy
Languages :	English, Hindi, Gujarati
Programming Languages :	SQL, C, C#, Python
Soft Skills :	Critical Thinking, Problem Solving, Decision Making
Tools & Platforms :	Git, GitHub, Vscode

PROJECTS

LifeLink – Donation & Request Management System Mar 2024
Developer

Designed and implemented a **donation and request management system** for blood, medicines, and organs using **Python** and **Object-Oriented Programming (OOP)**.

- Applied OOP principles with **modular class design** to model donors, recipients, and request workflows.
- Structured data validation to enhance system integrity.
- Developed request processing and matching logic, prioritizing **maintainable, well-structured, and scalable code**.

Technologies / Tools Used : React, MongoDB

StochOpt-Engine | 🌐 StochOpt-Engine Mar 2025 - Present
Developer

- **Developed** an **LSTM-based demand forecasting module** using **PyTorch** for **time-series prediction**.
- **Implemented** data preprocessing, sequence generation, and model training to enhance demand forecasting accuracy.
- **Trained** the model with **Gaussian Negative Log-Likelihood (NLL)** loss and evaluated performance using **Mean Squared Error (MSE)**.
- **Collaborated** via **Git/GitHub** to integrate the forecasting module into the StochOpt-Engine project.

Technologies / Tools Used : Python, PyTorch, Git, GitHub

AWARDS & ACHIEVEMENTS

- Ranked Top 5 in Mathematics and Computing at SVNIT
- Secured 99.97 Percentile in GUJCET
- Scored 99.75% in GSEB (Class 12)
