

JAIMIN SARVAIYA

B.Tech student in Mathematics and Computing

☎ 9023957015 ✉ jaiminsarvaiya52@gmail.com 🐙 GitHub 🌐 LinkedIn 📍 Surat, India

PROFESSIONAL SUMMARY

Passionate about programming and problem solving. Seeking an internship opportunity to apply my technical skills and analytical thinking to real-world challenges.

EDUCATIONS

Sardar Vallabhbhai National Institute of Technology Surat, India	Aug 2024
<i>B.Tech in Mathematics and Computing</i>	CGPA : 8.22
Late C B Kapadiya & L C Kapadiya School Surat, India	2024
<i>Class XII</i>	CGPA : 88.76%
Kalakunj Vidhyalaya Surat, India	2022
<i>Class X</i>	CGPA : 87.83%

PROJECTS

Credit Card Fraud Detection | 🐙 Github

Developer

- **Built a machine learning model** to detect fraudulent credit card transactions using the **IEEE-CIS Fraud Detection dataset** (590K+ transactions, highly imbalanced classes).
- **Performed data cleaning**, feature engineering, and preprocessing on transaction and identity data, including missing-value handling, categorical encoding, and scaling.
- **Trained and evaluated Logistic Regression and Random Forest classifiers**, using precision, recall, and ROC-AUC to fairly assess performance on imbalanced fraud data.
- **Applied class-imbalance handling (SMOTE)** to improve recall on the minority fraud class without inflating false positives.

Technologies / Tools Used : Python, Scikit-learn, Pandas

Joy Junction

Developer

- **Developed an event and venue management dashboard** with real-time booking based on crowd density.
- **Implemented admin controls** for venue management, event cancellation, and review-based rewards.
- **Iterated on UX** based on stakeholder feedback to improve usability.

Technologies / Tools Used : JavaScript, Node.js, React, MongoDB

SKILLS

Frameworks & Libraries : NumPy, Pandas, Matplotlib, Scikit-learn, Imbalanced-learn (SMOTE)

Programming Languages : C, C++, Python, SQL

Soft Skills : Problem Solving, Analytical Thinking, Rapid Learning, Time Management, Adaptability

Tools & Platforms : Git, GitHub, VS Code, Linux, Jupyter Notebook

ACHIEVEMENTS

Solved **240+ Leetcode Problems**.
