PROFILE

B.Tech undergraduate in Artificial Intelligence at National Institute of Technology, Surat (CGPA: 7.39/10) with a strong foundation in Data Structures and Algorithms and core computer science fundamentals. Experienced in building full-stack applications, collaborating on team-based projects, and solving algorithmic problems through competitive programming. Comfortable working across C++, Python, and JavaScript, with a keen interest in software development and machine learning.

EDUCATION

National Institute of Technology, Surat <i>B.Tech in Artificial Intelligence (CGPA: 7.39/10)</i>	Surat, India 2024 – 2028 (Expected)
GSEB Class XII <i>Percentage: 86%</i>	Surat, India 2023 – 2024
SSC Class X <i>Percentage: 86%</i>	Surat, India 2021 – 2022

TECHNICAL SKILLS

Programming Languages: C++, C, Python, JavaScript, SQL

Core CS Fundamentals: Data Structures and Algorithms, Operating Systems, Computer Architecture, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

Web Technologies: React.js, Next.js, Node.js, Express.js, Django, Tailwind CSS, Chart.js

Tools & Platforms: Git, GitHub, MongoDB, Firebase

PROJECTS

- Weatherly** | *Django, OpenWeatherMap API, Leaflet.js, Chart.js, Tailwind CSS* 2025
- Designed and developed a full-stack weather application using Django, allowing users to search cities and access real-time weather updates along with 5-day forecasts.
 - Consumed the OpenWeatherMap API to retrieve weather data and utilized Chart.js to present forecast trends and temperature variations visually.
 - Integrated Leaflet.js to display interactive maps, enhancing location-based context for weather information.
 - Implemented user authentication and crafted a responsive, modern glassmorphism-inspired interface using Tailwind CSS.
- Basho by Shivangi** | *Next.js, Firebase, Razorpay, Tailwind CSS, Framer Motion* | [Live](#) 2025
- Developed core e-commerce features including shopping cart, wishlist, and checkout workflows using Next.js and Firebase.
 - Integrated Razorpay payment gateway to enable secure and seamless online transactions.
 - Implemented the admin panel UI for managing products, orders, and workshop-related data.
 - Built responsive and animated user interfaces using Tailwind CSS and Framer Motion to improve user experience.

ACHIEVEMENTS

- Solved 300+ problems on Data Structures and Algorithms across LeetCode and GeeksforGeeks.
- Codeforces: Pupil (1200+ Rating).
- ACM Summer Challenge Finalist.
- ACM Mirror Challenge Finalist.
