PROFESSIONAL EXPERIENCE

Data & Analytics Intern — Dabur India Limited

May 2026 – Present

- Built a multi-page SLOB (Slow Moving and Obsolete Inventory) Management and Action Tracking Platform in Power BI to support supply chain decision-making at FMCG scale.
- Automated SAP–SharePoint data processing using Power Query, reducing manual reporting effort by 70%.
- Developed 10+ DAX measures for SLOB aging, near-expiry risk, and action closure KPIs to support decision-making.
- Enabled early identification of at-risk inventory, helping teams prioritize actions and potentially reduce inventory obsolescence by 10–15%.
- Designed dashboard modules for Action Closure Tracking and Root Cause Analytics, enabling end-to-end visibility from SLOB identification to resolution.
- Collaborated cross-functionally with an Accenture consultant team under enterprise mentorship to deliver a production-grade SLOB tracking platform.

Software Development Intern — Avasar Initiative

March 2026 – April 2026

- Contributed to the development of an education platform enabling students to access and stream recorded lectures.
- Built backend services using Node.js and Express.js to manage user authentication, lecture content, and API workflows.
- Designed RESTful APIs for handling video metadata, user access, and content delivery operations.
- Integrated database systems Neon Database for efficient storage and retrieval of user and lecture data.
- Collaborated with team members using Git, contributing to feature development, debugging, and system improvements.

PROJECTS

AR-Based Restaurant POS System (Production) — Full Stack Developer

Aug 2025 – Nov 2025

Developed an AR-enabled Restaurant POS system with 3D menu visualization, QR-based ordering, and billing management. Built backend services using Java, Spring Boot, and a responsive React.js front-end. Followed SDLC best practices throughout development; validated the complete login-to-query flow via systematic testing in Postman before feature sign-off.

Bloom Branding Client Website — Full Stack Developer

Mar 2025 – June 2025

Developed and deployed a responsive client website using React.js, HTML, CSS, and JavaScript. Implemented clean UI/UX, SEO optimization, and ensured cross-device compatibility.
