

NPTEL MOOC Courses at SVNIT

A Brief Research Note

Prepared for UG elective planning | July-December 2026 cycle

1. What This Is

NPTEL (National Programme on Technology Enhanced Learning) offers online courses coordinated by IIT Madras on behalf of SWAYAM, the Government of India MOOC platform. Courses are taught by IIT/IISc faculty, run for 8 or 12 weeks, and include weekly assignments plus a proctored certification exam.

The department PDF lists approved courses for the Jul-Dec 2026 NPTEL run (noc26-*). The Google Form collects student preferences from that list so the department can coordinate registration and elective mapping.

2. Relation to Your Semester

At SVNIT, NPTEL/SWAYAM courses approved by the Departmental Academic Advisory Committee (DAAC) may count toward degree requirements - typically as a department elective (DE) or open elective (OE), not as an extra subject on top of the regular load.

Only courses on the institute-approved list qualify for credit transfer. Choosing a random NPTEL course without departmental approval may yield a certificate but not SVNIT credits.

Sources: [4, 5]

3. Examination

Students must enroll on the NPTEL portal, register separately for the exam, and pay the exam fee. Evaluation: 25 marks from weekly assignments; 75 marks from an in-person proctored MCQ exam at a designated centre.

Pass criteria (both required): minimum 10/25 in assignments AND 30/75 in the final exam; overall score at least 40/100. This is NPTEL's exam, not SVNIT's regular end-semester examination.

Sources: [1, 2]

4. Marksheet & Credit Transfer

Credits are not automatic. After passing, submit the NPTEL e-certificate and score to the department/academic office. SVNIT maps the result to a grade on the regular grade card (transcript).

Standard NPTEL credit equivalence: 12-week course ~ 3 credits; 8-week ~ 2 credits; 4-week ~ 1 credit. During enrollment, select SVNIT as the SWAYAM local chapter so results are shared with the institute.

5. Key Dates (Jul-Dec 2026 batch, main cohort)

Course window: 20 Jul 2026 - 9 Oct 2026 | Enrollment deadline: 27 Jul 2026 | Exam registration deadline: 14 Aug 2026 | Exams: mid-late Oct 2026 (course-specific).

Sources: [6]

6. Practical Checklist

Confirm with your professor which elective slot (DE/OE) your chosen course replaces.

Fill the Google Form with a course from the approved PDF only.

Enroll at onlinecourses.nptel.ac.in; select Local Chapter = Yes, college = SVNIT Surat.

Complete assignments, register for and pass the NPTEL exam, then submit certificate to the department for credit transfer.
