Competitors of GE HealthCare?

GFG SVNIT AUG 2024 HR — REJECT CASE

KAVYA SAYS

Siemens Healthineers and Philips are the names I know at a high level in imaging/monitoring. I chose GE HealthCare for Edison/EID and the engineering culture I want to learn — not because I claim deep competitive analysis.

Willingness to relocate?

GFG SVNIT 2024 · REPEATED

KAVYA SAYS

Yes — Bengaluru on-site for the full internship. No constraints. Family supports it.

Familiarity with GE HealthCare products?

GFG SVNIT 2024 HR

KAVYA SAYS

Imaging — MRI, CT, ultrasound, X-ray; patient monitoring; Edison as AI/analytics across devices. I am not pretending clinical depth; I care that software quality affects trust.

Why GE and what do you expect?

GFG INTERNSHIP+PPO ROUND 3

KAVYA SAYS

Expect mentorship, a real backlog slice, code review, and healthcare quality habits. I will contribute ownership from LogiFlow and learn regulated-team practices.

Why healthcare instead of service/product companies? Why only GEHC?

GFG INTERN 2021 HR · SELECTED CANDIDATE

KAVYA SAYS

Healthcare raises the reliability bar. GE HealthCare specifically: Edison path, Bengaluru engineering, imaging+AI story. Tip from that selected write-up: give *your* answer — don't paste internet HR scripts.

What is good in you — give an example (e.g. teamwork)?

GFG FTE EEDP ROUND 5 HR

KAVYA SAYS

Ownership with honesty. Example: on LogiFlow I pushed recall/ROC-AUC when accuracy looked nicer — teammates could trust the story. That is how I practise teamwork: clear interfaces + no fake metrics.

Strengths and weaknesses with reasons?

PCON EID 2024 HR · ON-CAMPUS REVIEWS

KAVYA SAYS

Strength: ownership under deadlines (GSC Top 106). Weakness: used to over-polish before feedback — now I time-box and show a thin slice earlier.

Any other offers?

GFG FTE EEDP HR

KAVYA SAYS

Be factual. If none: “No other offers I am deciding between; GE HealthCare Edison is my priority.” If yes: state respectfully without games. Never invent offers.

Hobbies / clubs / online classes?

SENIOR SVNIT · INTERN 2021

KAVYA SAYS

DSA practice, campus finals (Web Wonders, Echelon). Keep short; be ready for a 30-second follow-up.

Changes you think should be incorporated in the organisation?

GFG PPO HR — ONE-OFF

KAVYA SAYS

As an outsider I would not prescribe. I would ask what slows intern onboarding and help there. Curiosity > criticism.

3. Hard lesson from scrapes

- **Tech clear ≠ offer.** SVNIT 2024 rejected at HR on products/competitors/relocate — prepare those three cold.
- **Prove adjectives.** “Good at teamwork” must have a concrete example (FTE HR).
- **Key points > improvisation.** PPO write-up: spontaneous HR answers can undo tech effort.
- **Own answers.** Intern 2021 selected tip: don't recite generic internet HR lines.

Saturday kit: products (MRI/CT/ultrasound/monitoring/Edison) · competitors (Siemens, Philips) · relocate yes · why GEHC · strength+example · weakness+fix · other offers honest · one soft question · join early (no-show = out).
