

Mock 10 — SVNIT HR kill-shot pack

GFG SVNIT Aug 2024 · cleared tech · rejected at HR on products / competitors / relocate

15–20 min

Must not fail

Cold answers

This mock is non-negotiable. Tech clear ≠ offer. Drill until answers are automatic.

INTERVIEWER Name GE HealthCare products you know.

YOU SAY

Imaging: MRI, CT, ultrasound, X-ray. Patient monitoring. Software/AI layer — Edison — analytics on device data. I'm not inventing model numbers or SKUs.

INTERVIEWER Competitors?

YOU SAY

At a high level: Siemens Healthineers and Philips in imaging/monitoring. I chose GEHC for Edison/EID and the engineering path I want — not because I claim a full market analysis.

INTERVIEWER Willing to relocate to Bengaluru for the full duration?

YOU SAY

Yes — on-site Bengaluru, full internship, no constraints. Family is aligned. No-shows aren't an option.

INTERVIEWER Any hesitation — hostel, family, exams?

YOU SAY

I've planned around the internship dates. Academics won't block attendance. If something extreme happened I'd communicate early — but I'm committing fully now.

INTERVIEWER Why should we take you over someone with a similar CGPA?

YOU SAY

Ownership with honest metrics — Top 106 LogiFlow, clear "I" contribution, and I've prepared company basics so HR isn't a surprise after tech.

INTERVIEWER Other offers?

YOU SAY

Be factual. If none: "No competing offer I'm weighing; GE HealthCare EID is my priority." Never invent offers.

Pass = products + competitors + relocate in <45s each, calm tone. Fail = "I'll check with family" · blank on Siemens/Philips · inventing CT model names.
